Nuance Concentrated Value Long-Short Fund

Investment Objective

The objective of the Nuance Concentrated Value Long-Short Fund (the “Fund”) is to provide long term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Investor Class	Institutional Class
	None	None
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	Investor Class	Institutional Class
Management Fees	1.00%	1.00%
Distribution and Service (12b-1) Fees	0.25%	0.00%
Shareholder Servicing Plan Fees	0.15%	0.15%
Other Expenses ⁽¹⁾	1.85%	1.85%
Dividend and Interest Expense on Short Sales ⁽¹⁾	0.88%	0.88%
Total Annual Fund Operating Expenses	4.13%	3.88%
Expense Reimbursement ⁽²⁾	(1.70)%	(1.70)%
Total Annual Fund Operating Expenses After Expense Reimbursement ⁽²⁾	2.43%	2.18%

⁽¹⁾ Because the Fund is new, these expenses are based on estimated amounts for the Fund’s current fiscal year.

⁽²⁾ Nuance Investments, LLC (the “Adviser”) has contractually agreed to reduce its management fees and may reimburse the Fund for its operating expenses, in order to ensure that Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses (“AFFE”), leverage, interest, dividend and interest expense on short sales, taxes, brokerage commissions, and extraordinary expenses) do not exceed 1.55% of the average daily net assets of the Investor Class and 1.30% of the average daily net assets of the Institutional Class. Fees reduced and expenses reimbursed by the Adviser may be recouped by the Adviser for a period of three fiscal years following the fiscal year during which such reduction and reimbursement was made, if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee reduction and expense reimbursement occurred and at the time of recoupment. The Operating Expenses Limitation Agreement will be in effect and cannot be terminated through at least August 27, 2017. Thereafter, the agreement may be terminated at any time upon 60 days’ written notice by the Trust’s Board of Trustees (the “Board”) or the Adviser, with the consent of the Board.

Example

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the expense limitation for one year). Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	<u>One Year</u>	<u>Three Years</u>
Investor Class	\$246	\$1,101
Institutional Class	\$221	\$1,028

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the

annual fund operating expenses or in the Example, affect the Fund's performance. For the fiscal period from December 31, 2015 through April 30, 2016, the Fund's portfolio turnover rate was 51% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by taking long positions in securities priced below, and short positions in securities priced above, their estimated intrinsic value as determined by Nuance Investments, LLC (the "Adviser"). Under normal market conditions, the Fund will take long positions in 15-35 securities, and will take short positions in up to 50 securities, with both the long and short positions consisting primarily of common stocks of any capitalization of companies organized in the United States. When the Fund takes a long position, it purchases a stock outright. When the Fund takes a short position, it sells, at the current market price, a stock it does not own but has borrowed in anticipation that the market price of the stock will decline. To complete, or close out, the short sale transaction, the Fund subsequently is obligated to replace the security borrowed by purchasing it at the market price at the time of replacement. Until the security is replaced, the proceeds of the short sale are retained by the broker, and the Fund is required to pay to the broker a negotiated portion of any dividends or interest which accrue during the period of the loan. The Fund makes money when the market price of the borrowed stock goes down and the Fund is able to replace it for less than it realized by selling it earlier. Conversely, if the price of the stock goes up after the short sale, the Fund will lose money because it will have to pay more to replace the borrowed stock than it received when it sold the stock short.

Although the Fund will invest primarily in the common stocks of U.S. companies, the Fund may invest up to 25% of its long assets in common stocks of foreign companies that are organized and headquartered in countries classified as "developed" by MSCI. As of June 30 2016, MSCI classified the following countries as "developed": Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, United Kingdom, and the United States.

The Adviser selects securities for the Fund's investment portfolio by using a classic value strategy that employs extensive quantitative screening and a bottom-up fundamental research process. When selecting securities to hold long, the Adviser seeks to identify leading businesses selling at a discount to fair value, with the potential to generate above-average rates of return over time. The Adviser searches across a range of industries and market sectors for companies that the Adviser believes are high quality, though temporarily out of favor. The Adviser seeks to select companies that have leading and sustainable competitive positions and above-average financial strength that trade at a discount to the Adviser's internal view of intrinsic value and that also display downside protection. When selecting securities to sell short, the Adviser seeks to identify companies across a range of industries and sectors that have average or below average competitive positions and unattractive risk reward profiles.

The Adviser will sell an investment held long when it achieves or surpasses the Adviser's proprietary view of intrinsic value or when its competitive position or financial situation erodes beyond the Adviser's expectations. Conversely, the Adviser will close a short position, or buy the security to cover a short investment, when the security no longer has an attractive risk reward profile or when the security's competitive position or financial situation improves beyond the Adviser's expectations. The Adviser expects the Fund's active trading of portfolio securities may result in a portfolio turnover rate in excess of 100% on an annual basis.

The Fund intends to maintain net exposure (the market value of long positions minus the market value of short positions) of between 100% net long and 25% net short. Under normal market conditions, the Fund's long positions may range from 75% to 100% and its short positions may range from 0% to 100%.

The Fund is “non-diversified,” meaning that a relatively high percentage of its assets may be invested in a limited number of issuers of securities.

Principal Risks

As with any mutual fund, there are risks to investing. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Remember, in addition to possibly not achieving your investment goals, **you could lose all or a portion of your investment in the Fund over short or even long periods of time.** The principal risks of investing in the Fund are:

General Market Risk. The Fund’s net asset value and investment return will fluctuate based upon changes in the value of its portfolio securities. Certain securities selected for the Fund’s portfolio may be worth less than the price originally paid for them, or less than they were worth at an earlier time.

New Fund Risk. The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Trust’s Board of Trustees (“Board of Trustees”) may determine to liquidate the Fund.

Management Risk. The Fund may not meet its investment objective or may underperform the market or other mutual funds with similar strategies if the Adviser cannot successfully implement the Fund’s investment strategies.

Non-Diversified Fund Risk. Because the Fund is “non-diversified” and may invest a greater percentage of its assets in the securities of a single issuer, a decline in the value of an investment in a single issuer could cause the Fund’s overall value to decline to a greater degree than if the Fund held a more diversified portfolio.

Value-Style Investing Risk. The Fund’s value investments are subject to the risk that their intrinsic values may not be recognized by the broad market or that their prices may decline.

Equity Securities Risk. The equity securities held in the Fund’s portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific industries, sectors, geographic markets, or companies in which the Fund invests.

Sector Emphasis Risk. The securities of companies in the same or related businesses (“industry sector”), if comprising a significant portion of the Concentrated Value Long-Short Fund’s portfolio, may in some circumstances react negatively to market conditions, interest rates and economic, regulatory or financial developments, and adversely affect the value of the Fund’s portfolio, to a greater extent than if such securities comprised a lesser portion of the Fund’s portfolio or the Fund’s portfolio was diversified across a greater number of industry sectors. Some industry sectors have particular risks that may not affect other sectors.

Large-Cap, Mid-Cap and Small-Cap Companies Risk. The Fund’s investment in larger companies is subject to the risk that larger companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Securities of mid-cap and small-cap companies may be more volatile and less liquid than the securities of large-cap companies.

Foreign Securities Risk. Investments in securities of foreign companies involves risks not ordinarily associated with investments in securities and instruments of U.S. companies, including risks relating to

political, social and economic developments abroad and differences between U.S. and foreign regulatory and tax requirements and market practices, including fluctuations in foreign currencies.

Currency Risk. When the Fund buys or sells securities on a foreign stock exchange, the transaction is undertaken in the local currency rather than in U.S. dollars, which carries the risk that the value of the foreign currency will increase or decrease, which may impact the value of the Fund's portfolio holdings and your investment. Non-U.S. countries may adopt economic policies and/or currency exchange controls that affect its currency valuations in a disadvantageous manner for U.S. investors and companies and restrict or prohibit the Fund's ability to repatriate both investment capital and income, which could place the Fund's assets in such country at risk of total loss.

Short Sales Risk. In establishing a short position in a security, the Fund is subject to the risk that it may not always be able to borrow a security, or to close out a short position at a particular time or at an acceptable price. If the price of the borrowed security increases between the date of the short sale and the date on which the Fund replaces the security or closes out the position, the Fund will experience a loss. Any loss will be increased by the amount of compensation, interest or dividends, and transaction costs that the Fund must pay to a lender of the security. Because the Fund may invest the proceeds of a short sale, another risk of short selling is similar to the effect of leverage, in that it amplifies changes in the Fund's NAV and may increase losses and the volatility of returns. The extent of such loss, because it stems from increases in the value of the security sold short, is theoretically unlimited.

Portfolio Turnover Risk. A high portfolio turnover rate (100% or more) has the potential to result in the realization and distribution to shareholders of higher capital gains, which may subject you to a higher tax liability.

Performance

When the Fund has been in operation for a full calendar year, performance information will be shown here. Updated performance information will be available on the Fund's website at www.nuanceinvestments.com/longshort-fund or by calling 1-855-NUANCE3 (1-855-682-6233).

Management

Investment Adviser

Nuance Investments, LLC is the Fund's investment adviser.

Portfolio Manager

Scott A. Moore, CFA, President and Chief Investment Officer of the Adviser since November 2008, is the co-portfolio manager responsible for the day-to-day management of the Fund. He has managed the Fund since its inception in December 2015.

Chad Baumler, CFA, Vice President, is the co-portfolio manager responsible for the day-to-day management of the Fund. He has managed the Fund since its inception in December 2015.

Purchase and Sale of Fund Shares

You may purchase or redeem Fund shares on any day that the New York Stock Exchange ("NYSE") is open for business by written request via mail (Nuance Concentrated Value Long-Short Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701), by wire transaction, by contacting the Fund by telephone at 1-855-NUANCE3 (1-855-682-6233), or through a financial intermediary. The minimum initial and subsequent investment amounts are shown below.

	Investor Class	Institutional Class
Minimum Initial Investment	\$2,500	\$1,000,000
Subsequent Minimum Investment	\$100	\$100

Tax Information

The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are a tax-exempt organization or are investing through a tax-advantaged arrangement such as a 401(k) plan or Individual Retirement Account. Distributions on investments made through tax-advantaged arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank or financial advisor), the Fund and/or its Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Investment Objective, Strategies, Risks and Disclosure of Portfolio Holdings

Investment Objective

The Fund's investment objective is to provide long-term capital appreciation. The Fund's investment objective is not fundamental and may be changed without the approval of the Fund's shareholders upon 60 days' prior written notice to shareholders.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by taking long and short positions in securities that are selected using a classic value strategy. To establish long positions for the Fund, the Adviser seeks to identify leading businesses that have above-average returns on capital and above-average financial strength, while being priced materially below the Adviser's proprietary calculation of intrinsic value and also displaying downside protection. When the Fund takes a long position, it purchases a stock outright.

To establish short positions for the Fund, the Adviser seeks to identify businesses that have average to below-average returns on capital and average to below-average financial strength, while being priced materially above the Adviser's proprietary calculation of intrinsic value. When the Fund takes a short position, it sells, at the current market price, a stock it does not own but has borrowed in anticipation that the market price of the stock will decline. To complete, or close out, the short sale transaction, the Fund subsequently is obligated to replace the security borrowed by purchasing it at the market price at the time of replacement. The Fund is said to have a "short position" in the securities sold until it delivers them to the broker. The period during which the Fund has a short position can range from as little as one day to more than a year. The Fund makes money when the market price of the borrowed stock goes down and the Fund is able to replace it for less than it realized by selling it earlier. Conversely, if the price of the stock goes up after the short sale, the Fund will lose money because it will have to pay more to replace the borrowed stock than it received when it sold the stock short. Until the security is replaced, the proceeds of the short sale are retained by the broker, and the Fund is required to pay to the broker a negotiated portion of any dividends or interest which accrue during the period of the loan. To meet current margin requirements, the Fund is also required to deposit with the broker cash or securities in excess of the current market value of the securities sold short as security for its obligation to cover its short position.

The Fund is also required to segregate or earmark liquid assets on its books to cover its obligation to return the security.

Using proprietary quantitative fundamental data (e.g. normalized returns on assets, normalized returns on equity, net debt to total capital) and proprietary valuation statistics (e.g. normalized price to earnings, normalized cash flow), the Adviser identifies a universe of companies in which the Fund may potentially invest. From this universe, the Adviser utilizes fundamental research to determine which companies to monitor for potential investments. The Adviser reviews each company on its own investment merits using company reports, regulatory filings, research reports, and interviews with company executives, investment analysts, suppliers, and competitors. The Adviser then assesses the current and prospective competitive situation of the business, the current and sustainable returns on capital of the business, and the current and prospective financial strength and flexibility of the business. The goal of the Adviser's research process is to assess the relative attractiveness or unattractiveness of the company being studied, and determine whether it has a strong and stable market share position, strong and sustainable returns on capital, and an appropriate level of financial strength to enable the business to maintain its level of competitiveness.

The Fund will typically establish 15 to 35 long positions in companies of any capitalization that provide a greater potential for return on capital than other available market opportunities, consistent with reasonable investment risk, and establish up to 50 short positions in companies that have average or below average competitive positions and unattractive risk reward profiles. The Fund intends to maintain net exposure (the market value of long positions minus the market value of short positions) of between 100% net long and 25% net short. Under normal market conditions, the Fund's long positions may range from 75% to 100% and its short positions may range from 0% to 100%.

The Fund will sell an investment held long, and close or cover an investment sold short, when it no longer represents an asymmetrical risk versus reward compared with other market opportunities. The Fund will also sell a security held long when the security achieves or surpasses the Adviser's proprietary view of intrinsic value, or when the security's competitive position or financial situation erodes beyond the Adviser's expectations. Conversely, the Fund will close or cover a short position when the security no longer offers a compelling risk reward profile or when a company's competitive position or financial situation improves beyond the Adviser's expectations. The Adviser expects the Fund's active trading of portfolio securities may result in a portfolio turnover rate in excess of 100% on an annual basis.

Although the Fund will invest primarily in the common stocks of U.S. companies, the Fund may invest up to 25% of its long assets in common stocks of foreign companies that are organized and headquartered in countries classified as "developed" by MSCI. As of June 30, 2016, the following countries were classified as "developed" by MSCI: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, United Kingdom, and the United States.

In considering whether to establish a position in the securities of a foreign company, the Adviser considers such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund invests in foreign companies will fluctuate from time to time depending on the Adviser's assessment of prevailing market, economic and other conditions.

Cash or Similar Investments and Temporary Strategies of the Fund. At the Adviser's discretion, the Fund may invest in high-quality, short-term debt securities and money market instruments for (i) temporary

defensive purposes in amounts up to 100% of the Fund's assets in response to adverse market, economic, or political conditions and (ii) retaining flexibility in meeting redemptions, paying expenses, and identifying and assessing investment opportunities. These short-term debt securities and money market instruments include cash, shares of other mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. government securities, and repurchase agreements. To the extent that the Fund invests in money market mutual funds for its cash position, there will be some duplication of expenses because the Fund will bear its pro rata portion of such money market funds' management fees and operational expenses. Taking a temporary defensive position may result in the Fund not achieving its investment objective.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose all or a portion of your investment in the Fund**. The principal risks of investing in the Fund are:

General Market Risk. The net asset value and investment return of the Fund will fluctuate based upon changes in the value of the Fund's portfolio securities. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced, and may continue to experience, volatility, which may increase risks associated with an investment in the Fund. The market value of securities in which the Fund invests is based upon the market's perception of value and is not necessarily an objective measure of the securities' value. In some cases, for example, the stock prices of individual companies have been negatively affected even though there may be little or no apparent degradation in the financial condition or prospects of the issuers. Similarly, the debt markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default, and valuation difficulties. As a result of this significant volatility, many of the following risks associated with an investment in the Fund may be increased. Continuing market volatility may have adverse effects on the Fund.

New Fund Risk. The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Trust's Board of Trustees if it determines it is in the best interest of shareholders. As a result, the timing of any Fund liquidation may not be favorable to certain individual shareholders.

Management Risk. The ability of the Fund to meet its investment objective is directly related to the Adviser's investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Adviser's research, analysis and asset allocation among portfolio securities. If the Adviser's investment strategies do not produce the expected results, the value of your investment could be diminished or even lost entirely and the Fund could underperform the market or other mutual funds with similar investment objectives.

Non-Diversified Fund Risk. The Fund is "non-diversified" and therefore is not required to meet certain diversification requirements under federal laws. The Fund may invest a greater percentage of its assets in the securities of a single issuer and may have fewer holdings than other mutual funds. As a result, a decline in the value of an investment in a single issuer could cause the Fund's overall value to decline to a greater degree than if the Fund held a more diversified portfolio.

Value-Style Investing Risk. The Fund's investments in value stocks may react differently to issuer, political, market, and economic developments than the general market and other types of stocks. Value stocks tend to be inexpensive relative to their earnings or assets compared to other types of stocks. However, value stocks may continue to be inexpensive for long periods of time and may not ever realize their full value. Also, if the market does not consider a stock to be undervalued, then the value of the stock may decline even if stock prices are generally rising.

Equity Securities Risk. The Fund's investments in equity securities are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including: expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; global or regional political, economic and banking crises; and factors affecting specific industries, sectors or companies in which the Fund invests. The Fund's net asset value and investment return will fluctuate based upon changes in the value of its portfolio securities.

Sector Emphasis Risk. The securities of companies in the same or related businesses ("industry sectors"), if comprising a significant portion of either Fund's portfolio, may in some circumstances react negatively to market conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund's portfolio or the Fund's portfolio was diversified across a greater number of industry sectors. Some industry sectors have particular risks that may not affect other sectors.

Large-Cap Company Risk. The Fund's investments in larger, more established companies are subject to the risk that larger companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors potentially resulting in lower markets for their common stock.

Mid-Cap and Small-Cap Companies Risk. The Fund invests in mid-cap and small-cap companies. These companies may not have the management experience, financial resources, product diversification and competitive strengths of large-cap companies. Therefore, their securities may have more price volatility and be less liquid than the securities of larger, more established companies. Their stocks may also be bought and sold less often and in smaller amounts than larger company stocks. Because of this, if the Adviser wants to sell a large quantity of a mid-cap or small-cap company stock, it may have to sell at a lower price than it might prefer, or it may have to sell in smaller than desired quantities over a period of time. Analysts and other investors may follow these companies less actively and therefore information about these companies may not be as readily available as it is for large-cap companies.

Foreign Securities Risk. The risks of investing in securities of foreign companies involves risks not generally associated with investments in securities of U.S. companies, including risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices. Securities that are denominated in foreign currencies are subject to the further risk that the value of the foreign currency will fall in relation to the U.S. dollar and/or will be affected by volatile currency markets or actions of U.S. and foreign governments or central banks. Foreign securities may be subject to greater fluctuations in price than securities of U.S. companies because foreign markets may be smaller and less liquid than U.S. markets.

Currency Risk. When the Fund buys or sells securities on a foreign stock exchange, the transaction is undertaken in the local currency rather than in U.S. dollars. In purchasing or selling local currency to execute transactions on foreign exchanges, the Fund will be exposed to the risk that the value of the

foreign currency will increase or decrease, which may impact the value of the Fund's portfolio holdings. Some countries have and may continue to adopt internal economic policies that affect its currency valuations in a manner that may be disadvantageous for U.S. investors or U.S. companies seeking to do business in those countries. In addition, a country may impose formal or informal currency exchange controls. These controls may restrict or prohibit the Fund's ability to repatriate both investment capital and income, which could undermine the value of the Fund's portfolio holdings and potentially place the Fund's assets at risk of total loss.

Short Sales Risk. Short sales by the Fund create opportunities to increase the Fund's return but, at the same time, involve specific risk considerations. Since the Fund in effect profits from a decline in the price of the securities sold short without the need to invest the full purchase price of the securities on the date of the short sale, the Fund's NAV will tend to increase more when the securities it has sold short decrease in value, and to decrease more when the securities it has sold short increase in value, than would otherwise be the case if it had not engaged in such short sales. The amount of any gain will be decreased, and the amount of any loss increased, by the amount of any premium, dividends or interest the Fund may be required to pay in connection with the short sale. Furthermore, under adverse market conditions, the Fund might have difficulty purchasing securities to meet its short sale delivery obligations, and might have to sell portfolio securities to raise the capital necessary to meet its short sale obligations at a time when fundamental investment considerations would not favor such sales. Because the Fund may invest the proceeds of a short sale, another effect of short selling on the Fund is similar to the effect of leverage, in that it amplifies changes in the Fund's NAV since it increases the exposure of the Fund to the market and may increase losses and the volatility of returns. In addition, because the fund's loss on a short sale stems from increases in the value of the security sold short, the extent of such loss, like the price of the security sold short, is theoretically unlimited. By contrast, a fund's loss on a long position arises from decreases in the value of the security and therefore is limited by the fact that a security's value cannot drop below zero.

Portfolio Turnover Risk. A high portfolio turnover rate (100% or more) has the potential to result in the realization by the Fund and distribution to shareholders of a greater amount of capital gains than if the Fund had a low portfolio turnover rate. This may mean that you would be likely to have a higher tax liability. Distributions to shareholders of short-term capital gains are taxed as ordinary income under federal tax laws. The Fund's tax loss carry forwards may help reduce your tax liability. A high portfolio turnover rate also leads to higher transaction costs, which could negatively affect the Fund's performance.

Portfolio Holdings

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI.

Management of the Fund

Investment Adviser

The Fund has entered into an investment advisory agreement ("Advisory Agreement") with Nuance Investments, LLC, located at 4900 Main Street, Suite 220, Kansas City, Missouri 64112. Established in 2008, the Adviser is an SEC-registered investment adviser that provides investment advisory services to private clients and institutions. As of June 30, 2016, the Adviser had about \$1.073 billion in assets under management. The Adviser is majority-owned by Montage Investments, LLC, a Kansas limited liability company and an SEC-registered investment adviser that as of June 30, 2016 was responsible, either directly or through affiliated advisers in which it owns a controlling interest, for about \$28.1 billion in

assets under management. Under the Advisory Agreement, the Adviser manages the Fund's investments subject to the supervision of the Board of Trustees.

The Adviser has overall supervisory responsibility for the general management and investment of the Fund's securities portfolio. The Adviser also furnishes the Fund with office space and certain administrative services and provides most of the personnel needed to fulfill its obligations under its advisory agreement. For its services, the Fund pays the Adviser a monthly management fee that is calculated at the annual rate of 1.00% of the Fund's average daily net assets.

Fund Expenses. The Fund is responsible for its own operating expenses. Pursuant to an Operating Expenses Limitation Agreement between the Adviser and the Trust, on behalf of the Fund, the Adviser has contractually agreed to reduce all or a portion of its management fees, and may reimburse the Fund for its operating expenses, in order to ensure that Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, leverage, interest, dividend and interest expense on short sales, taxes, brokerage commissions, and extraordinary expenses) do not exceed 1.55% of the average daily net assets of the Investor Class and 1.30% of the average daily net assets of the Institutional Class. Fees reduced and expenses reimbursed by the Adviser may be recouped by the Adviser for a period of three fiscal years following the fiscal year during which such reduction and reimbursement was made, if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee reduction and expense reimbursement occurred and at the time of recoupment. The Operating Expenses Limitation Agreement will be in effect and cannot be terminated through at least August 27, 2017. Thereafter, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees (the "Board") or the Adviser, with the consent of the Board.

A discussion regarding the basis of the Board of Trustees' approval of the Advisory Agreement is available in the Fund's annual report to shareholders for the period ended April 30, 2016.

The Fund, as a series of the Trust, does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, other than the Nuance Concentrated Value Fund and the Nuance Mid-Cap Value Fund (collectively with the Fund, the "Nuance Funds"), nor does it share the same investment adviser with any other series other than the Nuance Funds.

Portfolio Managers

Scott A. Moore, CFA[®]

Mr. Moore is the President and Chief Investment Officer of the Adviser. Mr. Moore has more than 25 years of investment experience and 17 years of portfolio management experience using a classic value approach. Prior to founding Nuance Investments, LLC in 2008, Mr. Moore served as vice president and senior portfolio manager at American Century Investment Management, Inc. ("ACI") from 1999 to 2008. At ACI, he managed more than \$10 billion in institutional, intermediary, and mutual fund assets. During his ten year portfolio management tenure at ACI, Mr. Moore was the lead manager of the American Century Mid Cap Value Fund, co-manager of the American Century Equity Income Fund, and co-manager of the American Century Value Fund. Prior to becoming a portfolio manager at ACI, Mr. Moore was an investment analyst at ACI from 1996 to 1999, specializing in the telecommunications, utility, and industrial sectors. Mr. Moore also worked at Boatmen's Trust Company in St. Louis as an investment analyst from 1995 to 1996, and at ACI as a fixed income investment analyst from 1993 to 1995. Mr. Moore holds an MBA with an emphasis in Finance from the University of Missouri, Columbia, and a Bachelor of Science with an emphasis in Finance from Southern Illinois University, Carbondale. He achieved the Chartered Financial Analyst designation in 1994.

Chad Baumler, CFA®

Mr. Baumler is a Vice President and portfolio manager with the Adviser, co-managing the Nuance Concentrated Value, Nuance Concentrated Value Long-Short and Nuance Mid Cap Value products. He also focuses his analytical skills on the Energy and Finance sectors. Chad has over 9 years of investment analyst experience, and 4 years of portfolio management experience using a classic value approach.

Before joining Nuance in 2014, Mr. Baumler was a portfolio manager for ACI from 2013-2014 where he co-managed the American Century Value Fund and the American Century Market Neutral Value Fund. Prior to becoming a portfolio manager, from 2007-2013, he spent six years as an investment analyst at ACI specializing in the energy and finance sectors. Mr. Baumler also has experience working in the commercial real estate industry at CB Richard Ellis, Inc. in Kansas City, Missouri.

The Fund's Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and each portfolio manager's ownership of Fund shares.

Shareholder Information

Pricing of Fund Shares

The price of each class of the Fund's shares is based on its net asset value ("NAV"). The NAV of each class of shares is calculated by dividing the total assets of each class, less the liabilities of each class, by the number of shares outstanding of each class. The NAV of each class is calculated at the close of regular trading of the NYSE, which is generally 4:00 p.m., Eastern time. The NAV will not be calculated, nor may investors purchase or redeem Fund shares, on days that the NYSE is closed for trading, even though certain Fund securities (i.e., foreign or debt securities) may trade on days the NYSE is closed, and such trading may materially affect the Fund's NAV.

The Fund's assets are generally valued at their market price using valuations provided by independent pricing services. When market quotations are not readily available, a security or other asset is valued at its fair value as determined under fair value pricing procedures approved by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market, and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual market value. The intended effect of using fair value pricing procedures is to ensure that the Fund is accurately priced. The Board will regularly evaluate whether the Trust's fair value pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through the application of such procedures by the Trust's valuation committee.

When fair value pricing is employed, security prices that the Fund uses to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) than the price of the security quoted or published by others, the value when trading resumes, and/or the value realized upon the security's sale. Therefore, if a shareholder purchases or redeems Fund shares when the Fund holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if the Fund was using market value pricing.

In the case of foreign securities, the occurrence of certain events (such as a significant surge or decline in the U.S. or other markets) after the close of foreign markets, but prior to the time the Fund's NAV is calculated will often result in an adjustment to the trading prices of foreign securities when foreign

markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to profit by estimating the Fund's NAV in advance of the time the NAV is calculated. The Fund's investments in smaller or medium capitalization companies is more likely to require a fair value determination because they may be more thinly traded and less liquid than securities of larger companies. The Adviser anticipates that the Fund's portfolio holdings will be fair valued only if market quotations for those holdings are unavailable or considered unreliable.

How to Purchase Fund Shares

Shares of the Fund are purchased at the NAV per share next calculated after your purchase order is received in good order by the Fund (as defined below), plus any applicable sales charge. Shares may be purchased directly from the Fund or through a financial intermediary, including but not limited to, certain brokers, financial planners, financial advisors, banks, insurance companies, retirement, benefit and pension plans or certain packaged investment products.

Shares of the Fund have not been registered and are not offered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses or in certain other circumstances where the Chief Compliance Officer and Anti-Money Laundering Officer for the Trust conclude that such sale is appropriate and is not in contravention of U.S. law.

A service fee, currently \$25, as well as any loss sustained by the Fund, will be deducted from a shareholder's account for any purchases that do not clear. The Fund and U.S. Bancorp Fund Services, LLC, the Fund's transfer agent (the "Transfer Agent"), will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order. Your initial order will not be accepted until a completed account application (an "Account Application") is received by the Fund or the Transfer Agent.

Investment Minimums. The minimum initial investment amount is \$2,500 for the Investor Class and \$1,000,000 for the Institutional Class. The minimum investment amount for subsequent investments is \$100 for all classes. The Fund reserves the right to waive the minimum initial or subsequent investment amounts at its discretion. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of initial or subsequent investments.

Purchases through Financial Intermediaries. For share purchases through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and payment to the Fund's Transfer Agent. Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales from the Fund. Your financial intermediary may charge for the services that it provides to you in connection with processing your transaction order or maintaining an account with them.

If you place an order for the Fund's shares through a financial intermediary that is authorized by the Fund to receive purchase and redemption orders on its behalf (an "Authorized Intermediary"), your order will be processed at the applicable price calculated after receipt by the Authorized Intermediary, consistent with applicable laws and regulations. Authorized Intermediaries are authorized to designate other Authorized Intermediaries to receive purchase and redemption orders on the Fund's behalf.

If your financial intermediary is not an Authorized Intermediary, your order will be processed at the applicable price next calculated after the Transfer Agent receives your order from your financial intermediary. Your financial intermediary must agree to send to the Transfer Agent immediately

available funds in the amount of the purchase price in accordance with the Transfer Agent's procedures. If payment is not received in a timely manner, as determined by the transfer agent, the Transfer Agent may rescind the transaction and your financial intermediary will be held liable for any resulting fees or losses. Financial intermediaries that are not Authorized Intermediaries may set cut-off times for the receipt of orders that are earlier than the cut-off times established by the Fund.

Purchase Requests Must be Received in Good Order

Your share price will be based on the next NAV per share, calculated after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. "Good order" means that your purchase request includes:

- The name of the Fund to be purchased;
- The class of shares to be purchased;
- The dollar amount of shares to be purchased;
- Your account application or investment stub; and
- A check payable to the name of the Fund or a wire transfer received by the Fund.

An Account Application or subsequent order to purchase Fund shares is subject to acceptance by the Fund and is not binding until so accepted. The Fund reserves the right to reject any Account Application or purchase order if, in its discretion, it is in the Fund's best interest to do so. For example, a purchase order may be refused if it appears so large that it would disrupt the management of the Fund. Purchases may also be rejected from persons believed to be "market-timers," as described under "Tools to Combat Frequent Transactions," below. Accounts opened by entities, such as credit unions, corporations, limited liability companies, partnerships or trusts, will require additional documentation. Please note that if any information listed above is missing, your Account Application will be returned and your account will not be opened.

Upon acceptance by the Fund, all purchase requests received in good order before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed at the applicable price next calculated after receipt. Purchase requests received after the close of the NYSE will be priced on the next business day.

Purchase by Mail. To purchase the Fund's shares by mail, simply complete and sign the Account Application or investment stub and mail it, along with a check made payable to the Fund, to:

Regular Mail

Nuance Concentrated Value Long-Short Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Nuance Concentrated Value Long-Short Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at the U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the Fund's Transfer Agent. All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

Purchase by Wire. If you are making your first investment in the Fund, the Transfer Agent must have a completed Account Application before you wire the funds. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire. Prior to sending the wire, please call the Transfer Agent at 1-855-NUANCE3 (1-855-682-6233) to advise them of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and your account number so that your wire can be correctly applied. Your bank should transmit immediately available funds by wire to:

Wire to:	U.S. Bank, N.A.
ABA Number:	075000022
Credit:	U.S. Bancorp Fund Services, LLC
Account:	112-952-137
Further Credit:	Nuance Concentrated Value Long-Short Fund (Class of shares to be purchased) (Shareholder Name/Account Registration) (Shareholder Account Number)

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Fund and U.S. Bank, N.A., the Fund's custodian, are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Investing by Telephone. You may not make initial purchases of Fund shares by telephone. If you have accepted telephone transactions on your Account Application or have been authorized to perform telephone transactions by subsequent arrangement in writing with the Fund and your account has been open for at least 15 calendar days, you may purchase additional shares by telephoning the Fund toll free at 1-855-NUANCE3 (1-855-682-6233). This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic financial institutions that are Automated Clearing House ("ACH") members may be used for telephone transactions. The minimum telephone purchase amount is \$100. If your order is received prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the applicable price determined on the day your order is placed. Shareholders may encounter higher than usual call waiting times during periods of high market activity. Please allow sufficient time to place your telephone transaction. The Fund is not responsible for delays due to communications or transmission outages or failure.

Subsequent Investments. Subject to the minimum subsequent investment amount described above, you may add to your account at any time by purchasing shares by mail, telephone or wire. You must call to notify the Fund at 1-855-NUANCE3 (1-855-682-6233) before wiring. An investment stub, which is attached to your individual account statement, should accompany any investments made through the mail. All subsequent purchase requests must include your shareholder account number.

Automatic Investment Plan. For your convenience, the Fund offers an Automatic Investment Plan ("AIP"). Under the AIP, after your initial investment, you may authorize the Fund to automatically withdraw any amount of at least \$100, on a monthly or quarterly basis, from your personal checking or savings account that you wish to invest in the Fund. In order to participate in the AIP, your bank must be a member of the ACH network. If you wish to enroll in the AIP, complete the appropriate section in the Account Application. The Fund may terminate or modify this privilege at any time. You may terminate

your participation in the AIP at any time by notifying the Transfer Agent five days prior to the next scheduled investment. A fee will be charged if your bank does not honor the AIP draft for any reason.

Anti-Money Laundering Program. The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”) and related anti-money laundering laws and regulations. To ensure compliance with these laws, the Account Application asks for, among other things, the following information for all “customers” seeking to open an “account” (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- Full name;
- Date of birth (individuals only);
- Social Security or taxpayer identification number; and
- Permanent street address (a P.O. Box number alone is not acceptable).

In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application as part of the Program. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to your true identity. If you require additional assistance when completing your application, please contact the Transfer Agent at 1-855-NUANCE3 (1-855-682-6233).

Cancellations and Modifications. The Fund will not accept a request to cancel or modify a transaction once processing has begun. Please exercise care when placing a transaction request.

How to Redeem Fund Shares

In general, orders to sell or “redeem” shares may be placed directly with the Fund or through a financial intermediary. You may redeem all or part of your investment in the Fund’s shares on any business day that the Fund calculates its NAV.

However, if you originally purchased your shares through a broker-dealer or financial intermediary, your redemption order must be placed with the same financial intermediary in accordance with their established procedures. Your financial intermediary is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. Your financial intermediary may charge for the services that they provide to you in connection with processing your transaction order or maintaining an account with them.

Shareholders who have an IRA or other retirement plan must indicate on their written redemption request whether to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRA or other retirement plan accounts may be redeemed by telephone at 1-855-NUANCE3 (1-855-682-6233). Investors redeeming by telephone will be asked whether or not to withhold taxes from any distribution.

Payment of Redemption Proceeds. You may redeem your Fund shares at a price equal to the NAV per share next determined after the Transfer Agent or an Authorized Intermediary receives your redemption request in good order. Your redemption request cannot be processed on days the NYSE is closed. All requests received by the Fund in good order after the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) will be processed on the next business day.

A redemption request will be deemed in “good order” if it includes:

- The shareholder’s name;
- The name of the Fund to be redeemed;
- The class of shares to be redeemed;
- The account number;
- The share or dollar amount to be redeemed; and
- Signatures by all shareholders on the account and signature guarantee(s), if applicable.

Redemption requests will not become effective until all documents have been received in good form by the Transfer Agent. The Transfer Agent may require additional documents for the sales of shares by a corporation, partnership, agent, fiduciary, surviving joint owner or from accounts with executors, trustees, administrations or guardians. Shareholders should contact the Transfer Agent for further information concerning documentation required for redemptions of Fund shares. Redemption requests that do not have the required documentation will be rejected.

While redemption proceeds may be paid by check sent to the address of record, the Fund is not responsible for interest lost on such amounts due to lost or misdirected mail. Redemption proceeds may be wired to your pre-established bank account or proceeds may be sent via electronic funds transfer through the ACH network using the bank instructions previously established for your account. Redemption proceeds will typically be sent on the business day following your redemption. Wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH; however, funds are typically credited to your bank within two to three days after redemption. Except as set forth below, proceeds will be paid within seven calendar days after the Fund receives your redemption request. The Fund reserves the right to suspend or postpone redemptions as permitted pursuant to Section 22(e) of the 1940 Act and as described below.

Please note that if the Transfer Agent has not yet collected payment for the shares you are redeeming, it may delay sending the proceeds until the payment is collected, which may take up to 12 calendar days from the purchase date. Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by the Fund of its securities is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets; or (3) for such other periods as the SEC may by order permit for the protection of shareholders. Your ability to redeem shares by telephone will be restricted for 15 calendar days after you change your address. You may change your address at any time by telephone or written request, addressed to the Transfer Agent. Confirmations of an address change will be sent to both your old and new address.

Signature Guarantee. Redemption proceeds will be sent to the address of record. The Transfer Agent may require a signature guarantee for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions. Signature guarantees can be obtained from banks and securities dealers, *but not from a notary public*. A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required of each owner in the following situations:

- If ownership is being changed on your account;

- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- If a change of address request has been received by the Transfer Agent within the last 15 calendar days; and
- For all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying the ability to purchase and redeem Fund shares by telephone and certain other services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and/or the Transfer Agent reserve(s) the right to require a signature guarantee or other acceptable signature verification in other instances based on the circumstances relative to the particular situation.

Redemption by Mail. You can execute most redemptions by furnishing an unconditional written request to the Fund to redeem your shares at the current NAV per share. Written redemption requests should be sent to the Transfer Agent at:

Regular Mail

Nuance Concentrated Value Long-Short Fund
 c/o U.S. Bancorp Fund Services, LLC
 P.O. Box 701
 Milwaukee, WI 53201-0701

Overnight or Express Mail

Nuance Concentrated Value Long-Short Fund
 c/o U.S. Bancorp Fund Services, LLC
 615 East Michigan Street, 3rd Floor
 Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at the U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund.

Wire Redemption. Wire transfers may be arranged to redeem shares. However, the Transfer Agent charges a fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades.

Telephone Redemption. If you have accepted telephone transactions on your Account Application or have been authorized to perform telephone transactions by subsequent arrangement in writing with the Fund, you may redeem shares, in amounts of \$100,000 or less, by instructing the Fund by telephone at 1-855-NUANCE3 (1-855-682-6233). A signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source may be required of all shareholders in order to qualify for or to change telephone redemption privileges on an existing account. Telephone redemptions will not be made if you have notified the Transfer Agent of a change of address within 15 calendar days before the redemption request. Shareholders may encounter higher than usual call waiting times during periods of high market activity. Please allow sufficient time to place your telephone transaction. The Fund is not responsible for delays due to communication or transmission outages or failures.

Note: Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting that you correctly state:

- Your Fund account number;
- The name in which your account is registered; and/or
- The Social Security or taxpayer identification number under which the account is registered.

If an account has more than one owner or person authorized to perform transactions, the Fund will accept telephone instructions from any one owner or authorized person.

Systematic Withdrawal Program. The Fund offers a systematic withdrawal plan (“SWP”) whereby shareholders or their representatives may request a redemption in any specific dollar amount of at least \$100 be sent to them each month, calendar quarter or annually. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start this program, your account must have Fund shares with a value of at least \$10,000. This program may be terminated or modified by the Fund at any time. Any request to change or terminate your SWP should be communicated in writing or by telephone to the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves redemption of Fund shares, and may result in a gain or loss for federal income tax purposes. In addition, if the amount requested to be withdrawn exceeds the rate of growth of assets in your account, including any dividends credited to your account, the account will ultimately be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call 1-855-NUANCE3 (1-855-682-6233) for additional information regarding the SWP.

The Fund’s Right to Redeem an Account. The Fund reserves the right to redeem the shares of any shareholder whose account balance is less than \$2,500, other than as a result of a decline in the NAV of the Fund. The Fund will provide a shareholder with written notice 30 days prior to redeeming the shareholder’s account.

Redemption-in-Kind. The Fund generally pays redemption proceeds in cash. However, under unusual conditions that make the payment of cash unwise (and for the protection of the Fund’s remaining shareholders), the Fund may pay all or part of a shareholder’s redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption-in-kind).

Specifically, if the amount you are redeeming from the Fund during any 90-day period is in excess of the lesser of \$250,000 or 1% of the Fund’s net assets, valued at the beginning of such period, the Fund has the right to redeem your shares by giving you the amount that exceeds this threshold of the Fund’s net assets in securities instead of cash. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and you may incur a taxable capital gain or loss as a result of the distribution. In addition, you will bear any market risks associated with such securities until they are converted into cash.

Cancellations and Modifications. The Fund will not accept a request to cancel or modify a transaction once processing has begun. Please exercise care when placing a transaction request.

How to Exchange Fund Shares

You may exchange all or a portion of your investment from the Fund to the other funds in the Trust that the Adviser manages within the same class. Because these other funds charge a front-end sales charge, you will be subject to the sales charge when you exchange your current Fund shares. Be sure to confirm with the Transfer Agent that the fund into which you exchange is available for sale in your state. Not all funds available for exchange may be available for purchase in your state. Any new account established through an exchange will be subject to the minimum investment requirements described above under “How to Purchase Fund Shares,” unless the account qualifies for a waiver of the initial investment

requirement. Exchanges will be executed on the basis of the relative NAV of the shares exchanged, including applicable sales charges. An exchange is considered to be a redemption of shares for federal income tax purposes on which you may realize a taxable capital gain or loss.

You may make exchanges only between identically registered accounts (name(s), address, and taxpayer ID number). There is currently no limit on exchanges, but the Fund reserves the right to limit exchanges (See “Tools to Combat Frequent Transactions”).

Exchanges By Mail. To exchange Fund shares by mail, simply complete a written request and mail it to the Fund:

Regular Mail

Nuance Concentrated Value Long-Short Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

Nuance Concentrated Value Long-Short Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The written request must contain the following information:

- Your account number;
- The name of the Fund and Share Class you are exchanging;
- The dollar amount or number of shares you want to sell (and exchange); and
- A completed Account Application for the other funds in the Trust that the Adviser manages into which you want to exchange, if you desire different account privileges than those currently associated with your current Fund account.

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at the U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund.

Exchanges by Telephone. If you accepted telephone transactions on your Account Application or have been authorized to perform telephone transactions by subsequent arrangement in writing with the Fund, you may exchange your Fund shares by telephone at 1-855-NUANCE3 (1-855-682-6233). During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to place your telephone transaction. The Fund is not responsible for delays due to communications or transmission outages or failure.

Note: Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting that you correctly state:

- Your Fund account number(s);
- The name in which your account is registered; and/or
- The social security or taxpayer identification number under which the account is registered.

Dividends and Distributions

The Fund will make distributions, if any, of net investment income quarterly. The Fund will also distribute net capital gains, if any, at least annually, typically during the month of December. The Fund may make additional distributions if deemed to be desirable at other times during the year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive distributions of net capital gains in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write or call the Transfer Agent in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more business days after the Transfer Agent has received your request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV per share and to reinvest all subsequent distributions.

Description of Classes

The Trust has adopted a multiple class plan that allows the Fund to offer one or more classes of shares of the Fund. The Fund offers two classes of shares – Investor Class and Institutional Class. This Prospectus offers both the Investor Class and Institutional Class. The different classes of shares represent investments in the same portfolio of securities, but the classes are subject to different expenses.

Investor Class shares are charged a 0.25% Rule 12b-1 distribution and service fee.

Institutional Class shares do not have a Rule 12b-1 distribution and service fee.

Tools to Combat Frequent Transactions

The Fund is intended for long-term investors. Short-term “market-timers” who engage in frequent purchases and redemptions may disrupt the Fund's investment program and create additional transaction costs that are borne by all of the Fund's shareholders. The Board has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps include, among other things, monitoring trading activity and using fair value pricing. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund implements these tools to the best of its abilities in a manner that it believes is consistent with shareholder interests. Except as noted herein, the Fund applies all restrictions uniformly in all applicable cases.

Monitoring Trading Practices. The Fund monitors selected trades in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, the Fund believes that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Fund seeks to act in a manner that it believes is consistent with the best interests of its shareholders. The Fund uses a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Fund in its sole discretion. To minimize harm to the Fund and its shareholders, the Fund reserves the right to reject any purchase order (but not a redemption request), in

whole or in part, for any reason and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

Fair Value Pricing. The Fund employs fair value pricing selectively to ensure greater accuracy in its daily NAVs and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual market value. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV per share. More detailed information regarding fair value pricing can be found in this Prospectus under the heading entitled "Pricing of Fund Shares."

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through Authorized Intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with Authorized Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with Authorized Intermediaries pursuant to which these intermediaries are required to provide to the Fund, at the Fund's request, certain information relating to its customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Authorized Intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund's policies. However, the Fund cannot guarantee the accuracy of the information provided to it from Authorized Intermediaries and cannot ensure that it will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Fund's ability to monitor and discourage abusive trading practices in non-disclosed and omnibus accounts may be limited.

Tax Consequences

Distributions of the Fund's net investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gains, and net gains from foreign currency transactions), if any, are generally taxable to the Fund's shareholders as ordinary income. To the extent that the Fund's distributions of net investment company taxable income are designated as attributable to "qualified dividend" income, such income may be subject to tax at the reduced rate of federal income tax applicable to non-corporate shareholders for net long-term capital gains, if certain holding period requirements have been satisfied by the shareholder. To the extent the Fund's distributions of net investment company taxable income are attributable to net short-term capital gains, such distributions will be treated as ordinary dividend income for the purposes of income tax reporting and will not be available to offset a shareholder's capital losses from other investments.

Distributions of net capital gains (net long-term capital gains less net short-term capital losses) are generally taxable as long-term capital gains (currently at the maximum federal rate of 20% for individual shareholders in the highest income tax bracket) regardless of the length of time that a shareholder has

owned Fund shares, unless you are a tax-exempt organization or are investing through a tax-deferred arrangement such as a 401(k) plan or individual retirement account.

Pursuant to provisions of the Health Care and Education Reconciliation Act, a 3.8% Medicare tax on net investment income (including capital gains and dividends) will also be imposed on individuals, estates and trusts, subject to certain income thresholds.

You will be taxed in the same manner whether you receive your distributions (whether of net investment company taxable income or net capital gains) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid the following January are taxable as if received on December 31.

Shareholders who sell, or redeem, shares generally will have a capital gain or loss from the sale or redemption. An exchange of the Fund's shares for shares of another fund will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount of reinvested taxable distributions, if any, the amount received from the sale or redemption and how long the shares were held by a shareholder. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any amounts treated as distributions of net capital gain received on such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares within 30 days before or after redeeming other Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the newly purchased shares.

Shareholders will be advised annually as to the federal tax status of all distributions made by the Fund for the preceding year. Distributions by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax advisor.

Other Fund Policies

Telephone Transactions. If you accepted telephone transactions on your Account Application or have been authorized to perform telephone transactions by subsequent arrangement in writing with the Fund, you may be responsible for fraudulent telephone orders made to your account as long as the Fund has taken reasonable precautions to verify your identity.

Telephone trades must be received by or prior to the close of the NYSE (generally 4:00 p.m., Eastern time). Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to the close of the NYSE.

Policies of Other Financial Intermediaries. Financial intermediaries may establish policies that differ from those of the Fund. For example, the institution may charge transaction fees, set higher minimum investments or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Please contact your financial intermediary for details.

Closing the Fund. The Board retains the right to close (or partially close) the Fund to new purchases if it is determined to be in the best interest of the Fund’s shareholders. Based on market and Fund conditions, and in consultation with the Adviser, the Board may decide to close the Fund to new investors, all investors, or certain classes of investors (such as fund supermarkets) at any time. If the Fund is closed to new purchases it will continue to honor redemption requests, unless the right to redeem shares has been temporarily suspended as permitted by federal law.

Householding. In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses and annual and semi-annual reports you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Fund reasonably believes are from the same family or household. If you would like to discontinue householding for your accounts, please call toll-free at 1-855-NUANCE3 (1-855-682-6233) to request individual copies of these documents. Once the Fund receives notice to stop householding, the Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

Inactive Accounts. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the “inactivity period” specified in your State’s abandoned property laws.

Distribution of Fund Shares

The Distributor

Quasar Distributors, LLC (the “Distributor”) is located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, and serves as distributor and principal underwriter to the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. Shares of the Fund are offered on a continuous basis.

Shareholder Service Plan Fees

The Trust has adopted a Shareholder Service Plan under which the Fund may pay a fee of up to 0.15% of the average daily net assets of the Fund’s Investor Class and Institutional for services provided to the Fund by financial institutions, including the Adviser or its affiliates.

Rule 12b-1 Distribution Fees

The Trust has adopted a Rule 12b-1 plan under which the Fund is authorized to pay to the Distributor or such other entities as approved by the Board of Trustees, as compensation for the distribution-related services provided by such entities, an aggregate fee of up to 0.25% of the average daily net assets of the Investor Class. The Distributor may pay any or all amounts received under the Rule 12b-1 Plan to other persons, including the Adviser or its affiliates, for any distribution service or activity designed to retain Fund shareholders.

Because the distribution and shareholder service plan fees are paid on an ongoing basis, your investment cost over time may be higher than paying other types of sales charges.

Payments to Financial Intermediaries

The Fund may pay service fees to intermediaries, such as banks, broker-dealers, financial advisors or other financial institutions, including affiliates of the Adviser, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Adviser, out of its own resources and without additional cost to the Fund or its shareholders, may provide additional cash payments to intermediaries who sell shares of the Fund. These payments and compensation are in addition to service fees paid by the Fund, if any. Payments are generally made to intermediaries that provide shareholder servicing, marketing support or access to sales meetings, sales representatives and management representatives of the intermediary. Payments may also be paid to intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list or in other sales programs. Compensation may be paid as an expense reimbursement in cases in which the intermediary provides shareholder services to the Fund. The Adviser may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

Financial Highlights

The financial highlights in the following tables are intended to help you understand the financial performance of the Fund's Institutional Class shares and Investor Class shares for the fiscal period indicated. Certain information reflects financial results for a single Fund share. The total return in each table represents the rate that an investor would have earned or lost on an investment in the Institutional Class shares or Investor Class shares of the Fund (assuming reinvestment of all dividends and distributions). The information in the tables below for the Fund's fiscal period indicated has been derived from the financial statements audited by Cohen Fund Audit Services, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the annual report, which is available upon request or on the Fund's website at <http://www.nuanceinvestments.com/funds>.

Concentrated Value Long-Short Fund Institutional Class	For The Period Inception through April 30, 2016⁽¹⁾

PRIVACY NOTICE

The Fund collects only relevant information about you that the law allows or requires it to have in order to conduct its business and properly service you. The Fund collects financial and personal information about you (“Personal Information”) directly (e.g., information on account applications and other forms, such as your name, address, and social security number, and information provided to access account information or conduct account transactions online, such as password, account number, e-mail address, and alternate telephone number), and indirectly (e.g., information about your transactions with us, such as transaction amounts, account balance and account holdings).

The Fund does not disclose any non-public personal information about its shareholders or former shareholders other than for everyday business purposes such as to process a transaction, service an account, respond to court orders and legal investigations or as otherwise permitted by law. Third parties that may receive this information include companies that provide transfer agency, technology and administrative services to the Fund, as well as the Fund’s investment adviser who is an affiliate of the Fund. If you maintain a retirement/educational custodial account directly with the Fund, we may also disclose your Personal Information to the custodian for that account for shareholder servicing purposes. The Fund limits access to your Personal Information provided to unaffiliated third parties to information necessary to carry out their assigned responsibilities to the Fund. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your Personal Information and requires its third party service providers with access to such information to treat your Personal Information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank, credit union or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.

Nuance Concentrated Value Long-Short Fund

A series of Managed Portfolio Series

FOR MORE INFORMATION

You can find more information about the Fund in the following documents:

Statement of Additional Information

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Annual and Semi-Annual Reports

The Fund's annual and semi-annual reports provide additional information about the Fund's investments. The annual reports contain a discussion of the market conditions and investment strategies that affected the Fund's performance during the Fund's prior fiscal period.

You can obtain a free copy of these documents and the SAI, request other information, or make general inquiries about the Fund by calling the Fund (toll-free) at 1-855-NUANCE3 (1-855-682-6233), by visiting the Fund's website at <http://www.nuanceinvestments.com/funds> or by writing to:
