ANNUAL REPORT

### NUANCE MID CAP VALUE FUND (UNAUDITED)

#### May 31, 2015

#### Dear Fellow Shareholders:

We are pleased to write our annual shareholder letter for the Nuance Mid Cap Value Fund (the "Fund"). The Fund is a classic value investment product investing primarily in the equity or equity-linked securities of United States based companies. The Fund seeks long-term capital appreciation primarily through investments in equity securities of companies organized in the U.S. that the investment team believes are high quality, though temporarily out of favor. The strategy typically invests in a portfolio of 50 to 90 companies with at least 80% of the portfolio invested in companies with mid-sized market capitalizations. The Adviser defines mid-capitalization companies as companies within the range of the capitalization of companies constituting the Russell Midcap® Value Index. The Adviser intends to manage the Fund so that the average weighted market capitalization of its portfolio falls between the range of the smallest and largest members of the Russell Mid Cap Index (defined using a trailing 12 month average of the smallest and largest members on a month-to-month basis). Although the strategy will invest primarily in the equity securities of U.S. companies, the strategy may invest up to 15% of its assets in equity securities of foreign companies that are organized and headquartered in countries classified as "developed" by MSCI. The primary benchmark for the Fund is the Russell Midcap Value Index. Clients may also be interested in comparing the Fund to the S&P 500 Index.

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Investor Class performance data shown reflects both performance with the maximum sales charge of 5.75% and without it. Performance data current to the most recent month end may be obtained by calling 1-855-682-6233.

#### NUANCE MID CAP VALUE FUND (UNAUDITED)

In terms of performance, since its inception on December 31, 2013 thru April 30, 2015, the Institutional Class is up 8.76 percent versus its primary index, the Russell Mid Cap Value Index, up 11.96 percent and the S&P 500 Index up 11.72 percent. Given the very short history of the Fund, we do not read much into our since inception performance. For more perspective on our long term performance, please refer to your prospectus. This Nuance Mid Cap Value product has existed in a separate account form since November 3, 2008. That said, during 2014 and early your team and the market saw two significant dislocations that occurred in the latter half of 2014 and very early 2015. The first of those dislocations was in the energy sector as a rare (but not unprecedented) drop in oil and natural gas prices to near our internal view of trough levels during the seventh year of an economic expansion. The second dislocation was the return of the 10 year treasury to historically low levels below two percent during the same period. In both cases, the dislocations led to stock price movements which created opportunity for our clients. In energy we added significantly to our highest quality equipment and service names in the 4th quarter and early 1st quarter of 2015. Related to interest rates and interest rate sensitive sectors, we saw the return to very high valuation levels in utilities, real estate investment trusts, some healthcare, and also consumer cyclical and staples names. Conversely, the low rates hurt net interest margins and returns on capital at some banks and resulted in banks retreating and valuations becoming more attractive. All of that led your portfolio to be overweight in select energy and regional banks names, while underweight in real estate investment trusts, healthcare and the consumer sector. That positioning hurt us late last year and very early this year, but the risk rewards were such that we were, and are still, very comfortable with our positioning. It is another example of the market chasing positive news to the point where valuations suggest a great deal of risk while at the same time punishing stocks of great companies to levels where risk is actually somewhat limited during the period of unrest.

Here at Nuance, our team and our processes are designed to emphasize consistency and what we believe is a detailed fundamental analysis of companies that have the potential to lead to investment returns that will be acceptable for our shareholders over the long term. To do this, we focus our attention on studying one company at a time using the Nuance approach. Part of that approach is to ensure that each company we own has a sound and solid competitive position and that the companies are undervalued based on our internally derived view of sustainable cash flows, earnings and valuation. We believe in a thorough fundamental valuation analysis and that focusing simply on the value of a business is not enough. Rather, we spend considerable time studying the downside potential of each company we own. As such, you can be assured that we understand the potential upside and the potential downside risks to our investments. This approach is critical to our goal of trying to provide shareholders with not only above-average returns over time, but above-average risk-adjusted returns as well.

As I write this letter, we are continuing to find leading business franchises selling at a discount to our own internal view of intrinsic or fair value. We found opportunities across many sectors, including the Basic Materials, Consumer Staples and Energy sectors. We are not finding many opportunities in the Utility sector or the Real Estate Investment Trust industry. Our view continues to be that markets are overvaluing companies that have higher than average dividend payout ratios and yields and undervaluing companies that have lower payout ratios and thus lower dividend yields. This is due to historically low level of interest rates and the apparent chase for yield by many investors.

Thank you for your interest and your continued support.

Mutual fund investing involves risk. Principal loss is possible. Investments in small and mid-capitalization companies involve additional risk such as limited liquidity and greater volatility than larger capitalization companies. Investments in foreign securities involve political, economic and currency risks, greater volatility and differences in accounting methods. The Fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Therefore, the Fund is more exposed to individual stock volatility than a diversified fund.

#### Past performance does not guarantee future results.

Weighted Market Capitalization: The average market capitalization of all companies in a fund – with each company weighted according to its percent held in the fund.

Dividend Payout Ratio: The percentage of earnings paid to shareholders in dividends.

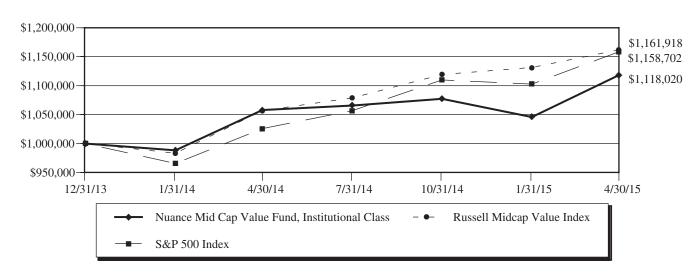

Dividend Yield: The amount a company pays out in dividends each year relative to its share price.

Opinions expressed are subject to change, are not guaranteed and should not be considered investment advice or recommendations to buy or sell any security.

A Cash Flow is a revenue or expense stream that changes an account over a given period. Nuance Investments, LLC is majority owned by Montage Investments, LLC.

Nuance Investments is the advisor to the Nuance Concentrated Value Fund which is distributed by Quasar Distributors, LLC.

#### Value of \$1,000,000 Investment (UNAUDITED)

The chart assumes an initial investment of \$1,000,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed may be worth more or less than their original cost. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

- (1) December 31, 2013.
- (2) Return reflects a sales load of 5.75%.
- (3) The Russell Midcap Index measures the performance of the mid-cap segment of the U.S. equity universe. The Russell Midcap Index is a subset of the Russell 1000 Index. It includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. This Index cannot be invested in directly.
- (4) The Standard & Poor's 500 Index (S&P 500) is an unmanaged, capitalization-weighted index generally representative of the U.S. market for large capitalization stocks. This Index cannot be invested in directly.

## EXPENSE EXAMPLE (UNAUDITED) APRIL 30, 2015

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include but are not limited to, sales charges (loads) on purchase payments; and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees, shareholder servicing fees, and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (November 1, 2014 – April 30, 2015).

#### **ACTUAL EXPENSES**

For each class, the first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

For each class, the second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.

### NOTES TO THE FINANCIAL STATEMENTS APRIL 30, 2015

#### 1. ORGANIZATION

Managed Portfolio Series (the "Trust") was organized as a Delaware statutory trust under a Declaration of Trust dated January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Nuance Mid Cap Value Fund (the "Fund") is a diversified series with its own investment objectives and policies within the Trust. The investment objective of the Fund is long-term capital appreciation. The Fund commenced operations on December 31, 2013. The Fund currently offers two classes, the Investor Class and the Institutional Class. Investor Class shares are subject to a 0.25% distribution fee and each class of shares is subject to a shareholder servicing fee of up to 0.15%. Each class of shares has identical rights and privileges except with respect to the distribution fees and voting on matters affecting a single share class. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Fund complies with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no taxes to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the year ended April 30, 2015, the Fund did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the statement of operations. During the year ended April 30, 2015, the Fund did not incur any interest or penalties. The Fund is subject to examination by U.S. taxing authorities for the tax periods since the commencement of operations.

**Security Transactions, Income and Distributions** – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities.

The Fund will make distributions, if any, of net investment income quarterly. The Fund will also distribute net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended April 30, 2015, the Fund increased

## Notes to the Financial Statements – Continued April 30, 2015

accumulated undistributed net investment income by \$18,308 and decreased accumulated undistributed net realized gain on investments by \$18,308.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Income, Expenses and Gains/Losses – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Fund are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares. Shareholder service fees are expensed at up to 0.15% of average daily net assets for each class of shares. Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

#### 3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

**Equity Securities** – Securities that are primarily traded on a national securities exchange shall be valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available shall be valued using the Nasdaq Official Closing Price ("NOCP"). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

## Notes to the Financial Statements – Continued April 30, 2015

**Mutual Funds** – Investments in other mutual funds, including money market funds, are valued at their net asset value per share and are categorized in Level 1 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its net asset values per share. The Board of Trustees has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board of Trustees regularly reviews reports that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's securities as of April 30, 2015:

	Level 1	Level 2 Level 3		Total
Common Stocks	\$25,579,916	\$ —	\$ —	\$ 25,579,916
Short-Term Investment	1,818,482			1,818,482
<b>Total Investments in Securities</b>	\$27,398,398	\$ —	\$ —	\$27,398,398

Transfers between levels are recognized at the end of the reporting period. During the year ended April 30, 2015, the Fund recognized no transfers to/from all Levels. The Fund did not invest in any Level 3 investments during the period. Refer to the Schedule of Investments for further information on the classification of investments.

#### 4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Nuance Investments, LLC (the "Adviser") to furnish investment advisory services to the Fund. Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 0.75% of the Fund's average daily net assets.

The Fund's Adviser has contractually agreed to waive a portion or all of its management fees and/or reimburse the Fund for its expenses to ensure that total annual operating expenses (excluding acquired fund fees and expenses, interest, taxes, brokerage commissions and extraordinary expenses) for the Fund do not exceed 1.40% and 1.15% of average daily net assets of the Fund's Investor Class and Institutional Class, respectively, subject to possible recoupment from the Fund within three years after the fees have been waived or reimbursed. Expenses waived and/or reimbursed by the Adviser may be recouped by the Adviser if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver and/or reimbursement occurred. The Operating Expense Limitation Agreement will be in effect through at least August 31, 2016. Prior to August 31, 2016, this Operating Expense Limitation Agreement cannot be terminated. Waived and/or reimbursed fees and expenses subject to potential recovery by year of expiration are as follows:

Expiration	Amount
April 30, 2017	\$ 82,229
April 30, 2018	\$142,134

U.S. Bancorp Fund Services, LLC ("USBFS" or the "Administrator") acts as the Fund's Administrator, Transfer Agent, and Fund Accountant. U.S. Bank, N.A. (the "Custodian") serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting

## Notes to the Financial Statements – Continued April 30, 2015

services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund's custodian; coordinates the payment of the Fund's expenses and reviews the Fund's expense accruals. The officers of the Trust and the Chief Compliance Officer are employees of the Administrator. A Trustee of the Trust is an officer of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and chief compliance officer services for the year ended April 30, 2015 are disclosed in the Statement of Operations.

Quasar Distributors, LLC (the "Distributor") acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares. The Distributor is an affiliate of the Administrator. A Trustee of the Trust is an interested person of the Distributor.

#### 5. DISTRIBUTION & SHAREHOLDER SERVICING FEES

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 (the "Plan") in the Investor Class only. The Plan permits the Fund to pay for distribution and related expenses at an annual rate of 0.25% of the Investor Class average daily net assets. The expenses covered by the Plan may include the cost of preparing and distributing prospectuses and other sales material, advertising and public relations expenses, payments to financial intermediaries and compensation of personnel involved in selling shares of the Fund. Payments made pursuant to the Plan will represent compensation for distribution and service activities, not reimbursements for specific expenses incurred. For the year ended April 30, 2015, the Investor Class incurred expenses of \$818 pursuant to the Plan.

The Fund has entered into a shareholder servicing agreement (the "Agreement") with the Adviser, under which the Fund may pay servicing fees at an annual rate of up to 0.15% of the average daily net assets of each class. Payments to the Adviser under the Agreement may reimburse the Adviser for payments it makes to selected brokers, dealers and administrators which have entered into service agreements with the Adviser for services provided to shareholders of the Fund. The services provided by such intermediaries are primarily designed to assist shareholders of the Fund and include the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Fund in servicing such shareholders. Services provided by such intermediaries also include the provision of support services to the Fund and includes establishing and maintaining shareholders' accounts and record processing, purchase and redemption transactions, answering routine client inquiries regarding the Fund, and providing such other personal services to shareholders as the Fund may reasonably request. For the year ended April 30, 2015, the Investor and Institutional Class incurred \$491 and \$8,996, respectively of shareholder servicing fees under the Agreement.

## Notes to the Financial Statements – Continued April 30, 2015

#### 6. CAPITAL SHARE TRANSACTIONS

Transactions in shares of the Fund were as follows:

	Year Ended April 30, 2015	For the Period Inception through April 30, 2014 <sup>(1)</sup>
Investor Class:		
Shares sold	49,280	3,951
Shares issued to holders in reinvestment of distributions	2,514	7
Shares redeemed	(6,342)	(487)
Net increase in Investor Class shares	45,452	3,471
Institutional Class:

Net increase in shares outstanding	_593,074	2,017,757
		<del></del>

<sup>(1)</sup> Inception date of the Fund was December 31, 2013.

#### 7. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the year ended April 30, 2015, were as follows:

	Purchases	Sales	
U.S. Government	\$ —	\$ —	
Other	\$34.552.474	\$30,457,049	

#### 8. FEDERAL TAX INFORMATION

The aggregate gross unrealized appreciation and depreciation of securities held by the Fund and the total cost of securities for federal income tax purposes at April 30, 2015, were as follows:

Aggregate Gross	Aggregate Gross		Federal Income
Appreciation	Depreciation	Net	Tax Cost
\$1,348,265	\$(903,358)	\$444,907	\$26,953,491

The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the deferral of wash sale losses. At April 30, 2015, components of accumulated earnings on a tax-basis were as follows:

	Undistributed		Total
Undistributed	Long-Term	Unrealized	Accumulated
<b>Ordinary Income</b>	<b>Capital Gains</b>	Appreciation	Earnings
\$484,471	\$67,180	\$444,907	\$996,558

## Notes to the Financial Statements – Continued April 30, 2015

As of April 30, 2015, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31. For the taxable year ended April 30, 2015, the Fund does not plan to defer any qualified late year losses.

The tax character of distributions paid during the year ended April 30, 2015, were as follows:

	Long Term	
<b>Ordinary Income</b>	<b>Capital Gains</b>	Total
\$1,554,509	\$1,732	\$1,556,241

The tax character of distributions paid during the period ended April 30, 2014, were as follows:

	Long Term	
Ordinary Income	Capital Gains	Total
\$53,295	\$ —	\$53,295

The Fund designated as long-term capital gain, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax year ended April 30, 2015.

#### 9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of April 30, 2015, National Financial Services, LLC, for the benefit of its customers, owned 80.81% of the outstanding shares of the Fund.

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Nuance Mid Cap Value Fund and Board of Trustees of Managed Portfolio Series

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Nuance Mid Cap Value Fund (the "Fund"), a series of Managed Portfolio Series, as of April 30, 2015, the related statement of operations for the year then ended, and the statements of changes in net assets and the financial highlights for each of the two periods in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2015, by correspondence with the custodian and brokers, or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Nuance Mid Cap Value Fund as of April 30, 2015, the results of its operations for the year then ended, and the changes in its net assets and financial highlights for each of the two periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

For the fiscal year ended April 30, 2015, certain dividends paid by the Fund may be subject to a maximum tax rate of 15%, as provided for by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The percentage of dividends declared from ordinary income designated as qualified dividend income was 58.41% for the Fund.

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the fiscal year ended April 30, 2015 was 55.99% for the Fund.

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871 (k)(2)(c) was 83.40%.

#### APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED)

At the regular meeting of the Board of Trustees of Managed Portfolio Series ("Trust") on February 17-18, 2015, the Trust's Board of Trustees ("Board"), including all of the Trustees present in person who are not "interested persons" of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended ("Independent Trustees"), considered and approved the continuation of the Investment Advisory Agreement between the Trust and Nuance Investments, LLC ("Nuance") regarding the Nuance Mid Cap Value Fund (the "Fund") (the "Investment Advisory Agreement") for another annual term.

Prior to this meeting and at a meeting held on January 8, 2015, the Trustees received and considered information from Nuance and the Trust's administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement ("Support Materials"). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees, and received a memorandum from such counsel discussing the legal standards for their consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board's determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant, including the following: (1) the nature, extent, and quality of the services provided by Nuance with respect to the Fund; (2) the cost of the services provided and the profits realized by Nuance and its affiliates from services rendered to the Trust with respect to the Fund; (3) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (4) the extent to which economies of scale may be realized as the Fund grows and whether the advisory fee for the Fund reflects such economies of scale for the Fund's benefit; and (5) other financial benefits to Nuance and its affiliates resulting from services rendered to the Fund. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling.

Based upon the information provided to the Board throughout the course of the year, including an in-person presentation by a representative of Nuance, and the Support Materials, the Board concluded that the overall arrangements between the Trust and Nuance set forth in the Investment Advisory Agreement, as it relates to the Fund, continue to be fair and reasonable in light of the services that Nuance performs, the investment advisory fees that the Fund pays, and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees' determination to approve the continuation of the Investment Advisory Agreement are summarized below.

Nature, Extent and Quality of Services Provided. The Trustees considered the scope of services that Nuance provides under the Investment Advisory Agreement with respect to the Fund, noting that such services include but are not limited to the following: (1) investing the Fund's assets consistent with the Fund's investment objective and investment policies; (2) determining for the Fund the portfolio securities to be purchased, sold or otherwise disposed of and the timing of such transactions; (3) voting all proxies with respect to the Fund's portfolio securities; (4) maintaining the required books and records for transactions that Nuance effected on behalf of the Fund; and (5) selecting broker-dealers to execute orders on behalf of the Fund. The Trustees noted Nuance's assets under management and its capitalization, as well as its affiliation with Montage Investments, LLC, an SEC-registered investment adviser which, through itself and its numerous advisory subsidiaries, oversees approximately \$27 billion in assets. The Trustees considered the investment philosophy of the Fund's portfolio managers and their investment analysis and portfolio management experience, noting one portfolio manager's significant experience managing assets utilizing investment objectives similar to that of the Fund. The Trustees also considered the

#### APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) - CONTINUED

Fund's investment performance as of December 31, 2014 compared to its benchmarks and to the composite of accounts that Nuance manages utilizing similar investment strategies to that of the Fund. The Trustees noted that while the Fund underperformed its respective benchmarks since the Fund's inception, the Fund achieved positive returns over the course of its relatively limited operations and outperformed its benchmarks during certain short term periods. The Trustees further noted that it is difficult to make meaningful comparisons with short-term results. The Trustees also observed that the Fund's performance was consistent with the performance of its respective composite over all relevant time periods. The Trustees concluded that they are satisfied with the nature, extent and quality of services that Nuance provides to the Fund under the Investment Advisory Agreement.

Cost of Advisory Services and Profitability. The Trustees considered the annual management fee that the Fund pays to Nuance under the Investment Advisory Agreement, as well as Nuance's profitability from services that Nuance and its affiliates rendered to the Nuance Mid Cap Value Fund during the 6 month period ended June 30, 2014. In that regard, the Trustees noted that Nuance and its affiliates subsidize the cost of all distribution services rendered to the Fund which exceed the projected Rule 12b-1 fees payable by the Fund. The Trustees also considered the management fees Nuance respectively charges to separately managed accounts with investment strategies similar to those of the Fund. They observed that the Nuance Mid Cap Value Fund generally pays a slightly lower advisory fee than corresponding separately managed accounts with similar asset levels. The Trustees also took into account, however, that Nuance has additional responsibilities with respect to the Fund, including additional compliance obligations and the preparation of Board and shareholder materials, that justify a higher fee. The Trustees also noted that Nuance had contractually agreed to reduce its management fee and, if necessary, reimburse the Fund for operating expenses, as specified in the Fund's prospectus. The Trustees concluded that Nuance's service relationship with the Nuance Mid Cap Value Fund has not been profitable.

Comparative Fee and Expense Data. The Trustees considered a comparative analysis of the contractual expenses borne by the Fund and those of funds in the same Morningstar benchmark category. The Trustees noted that:

• The Nuance Mid Cap Value Fund's management fee was consistent with the average and median management fees of funds comprising the benchmark category. After fee waivers and expense reimbursements, the total expenses of the Institutional Class and Investor Class shares of the Fund were each higher than the average total expenses of funds comprising the benchmark category, but the total expenses of the Institutional Class shares were lower than the median for the benchmark category;

The Trustees also considered that the average net assets of the funds comprising the benchmark category for the Fund were significantly higher than the assets of the Fund. While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that Nuance's advisory fee continues to be reasonable.

**Economies of Scale.** The Trustees then considered whether the Fund may benefit from any economies of scale, noting that the investment advisory fee for the Fund does not contain breakpoints. The Trustees noted that given current asset levels, it was not necessary to consider the implementation of fee breakpoints at the present time, but agreed to revisit the issue in the future as circumstances change and asset levels increase.

#### APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) - CONTINUED

**Other Benefits.** The Trustees considered the extent to which Nuance utilizes soft dollar arrangements with respect to portfolio transactions, and noted that affiliated brokers are not used to execute the Fund's portfolio transactions. While the Trustees noted that Rule 12b-1 and shareholder servicing fees may be paid to Nuance and its affiliates as compensation for shareholder and distribution services performed on behalf of the Fund, the Trustees also observed that the distribution expenses that Nuance and its affiliates incurred significantly exceed any Rule 12b-1 payments from the Fund. The Trustees concluded that Nuance will not receive any additional financial benefits from services rendered to the Fund.

#### PRIVACY NOTICE (UNAUDITED)

The Fund collects only relevant information about you that the law allows or requires it to have in order to conduct its business and properly service you. The Fund collects financial and personal information about you ("Personal Information") directly (e.g., information on account applications and other forms, such as your name, address, and social security number, and information provided to access account information or conduct account transactions online, such as password, account number, e-mail address, and alternate telephone number), and indirectly (e.g., information about your transactions with us, such as transaction amounts, account balance and account holdings).

The Fund does not disclose any non-public personal information about its shareholders or former shareholders other than for everyday business purposes such as to process a transaction, service an account, respond to court orders and legal investigations or as otherwise permitted by law. Third parties that may receive this information include companies that provide transfer agency, technology and administrative services to the Fund, as well as the Fund's investment adviser who is an affiliate of the Fund. If you maintain a retirement/educational custodial account directly with the Fund, we may also disclose your Personal Information to the custodian for that account for shareholder servicing purposes. The Fund limits access to your Personal Information provided to unaffiliated third parties to information necessary to carry out their assigned responsibilities to the Fund. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your Personal Information and requires its third party service providers with access to such information to treat your Personal Information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, credit union, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.
