SEMI-ANNUAL REPORT

## NUANCE MID CAP VALUE FUND

---

October 31, 2018

Dear Fellow Shareholders:

We are pleased to write our semi-annual shareholder letter for the Nuance Mid Cap Value Fund (the “Fund”). The Fund is a classic value investment product investing primarily in the equity or equity-linked securities of United States based companies. The Fund seeks long-term capital appreciation primarily through investments in equity securities of companies organized in the United States that the investment team believes are high quality, though temporarily out of favor. The strategy typically invests in a portfolio of 50 to 90 companies with at least 80 percent of the portfolio invested in companies with mid-sized market capitalizations. The Adviser defines mid-capitalization companies as companies within the range of the capitalization of companies constituting the Russell Midcap<sup>®</sup> Index. The Adviser intends to manage the Fund so that the average weighted market capitalization of its portfolio (excluding short-term investments) falls between the range of the smallest and largest members of the Russell Mid Cap Index (defined using a trailing 12-month average of the smallest and largest members on a month to month basis). Although the strategy will invest primarily in the equity securities of U.S. companies, the strategy may invest up to 15% of its assets in equity securities of foreign companies that are classified as “developed” by MSCI. The primary benchmark for the Fund is the Russell Midcap Value Index. Clients may also be interested in comparing the Fund to the S&P 500 Index.

*Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Short term performance, in particular, is not a good indication of the fund’s future performance, and an investment should not be made solely based on returns. Investor Class performance data shown reflects both performance with the maximum sales charge of 5.75% (for periods prior to September 17, 2015) or 5.00% (for periods September 17, 2015 and after) and without it. Performance data current to the most recent month end may be obtained by calling 1-855-682-6233.*

## NUANCE MID CAP VALUE FUND

---

In terms of performance, since its inception on December 31, 2013 through October 31, 2018, the Institutional Class is up 8.47 percent versus its primary index – the Russell Mid Cap Value Index – up 7.56 percent and the S&P 500 Index up 10.49 percent. For more perspective on our long-term performance, please refer to your prospectus. This Nuance Mid Cap Value product has existed in a separate account form since November 3, 2008. While our Nuance Mid Cap Value Fund slightly outperformed the benchmark over the 6-month time horizon, Nuance cautions clients regarding the use of short-term performance as a tool to make investment decisions. As we remind our clients, your team continues to try and find leading business franchises with sustainable competitive positions that are trading below our internally derived view of fair or intrinsic value. We believe that our time-tested process of finding what we consider best of breed businesses with better than the market downside support and better than the market upside potential over the long-term should lead to solid risk adjusted returns versus our peers and benchmarks.

At Nuance, our team and our processes are designed to emphasize consistency and what we believe is thorough fundamental analysis of companies that have the potential to lead to investment returns that will be acceptable for our shareholders over the long term. To do this, we focus our attention on studying one company at a time using the Nuance approach. Part of that approach is to ensure that each company we own has a sound and solid competitive position and that the companies are undervalued based on our internally derived view of sustainable cash flows, earnings and valuation. We believe in a thorough fundamental valuation analysis and that focusing simply on the value of a business is not enough. Rather, we spend considerable time studying the downside potential of each company we own. As such, we believe that we understand the potential upside and the potential downside risks to our investments. This approach is critical to our goal of trying to provide shareholders with not only above-average returns over time, but above-average risk-adjusted returns as well.

The portfolio has been stable from a sector weighting standpoint, and we continue to believe the opportunity set remains limited. Our largest overweight is in the Healthcare sector as we continue to find select leaders that we believe have better risk rewards profiles versus other market opportunities. Our second largest overweight is in the Financial sector. Within the Financial sector, the overweight is not in the classic Bank industry but rather is focused on the Insurance industry. We are seeing attractive opportunities in the Insurance industry in both the Property & Casualty sub-industry due to under-earnings stemming from the relatively recent catastrophe impacts and the Life and Health sub-industry largely due to continued low long-term interest rates couple with some recent mortality issues. We continue to have an overweight position in the Consumer Staples sector where we see select opportunities. Our underweight position in the Energy sector remains unchanged as we believe that crude oil related companies are likely facing a multi-year period of competitive transition. We continue to be underweight in the Real Estate, Industrials, and Consumer Discretionary sectors due to valuation concerns.

Thank you for your interest and your continued support.

Scott Moore, CFA

**Mutual fund investing involves risk. Principal loss is possible. Investments in small and mid-capitalization companies involve additional risk such as limited liquidity and greater volatility than larger capitalization companies. Investments in foreign securities involve political, economic and currency risks, greater volatility and differences in accounting methods. The Fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Therefore, the Fund is more exposed to individual stock volatility than a diversified fund.**

*Past performance does not guarantee future results.*

### Value of \$10,000 Investment (UNAUDITED)

*The chart assumes an initial investment of \$10,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed may be worth more or less than their original cost. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.*

### EXPENSE EXAMPLE (UNAUDITED) OCTOBER 31, 2018

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include but are not limited to, sales charges (loads) on purchase payments; and (2) ongoing costs, including management fees, distribution and service (12b-1) fees, shareholder servicing fees, and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (May 1, 2018 – October 31, 2018).

#### ACTUAL EXPENSES

For each class, the first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

#### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

For each class, the second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

*Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.*

	<u>Beginning Account Value (5/1/2018)</u>	<u>Ending Account Value (10/31/2018)</u>	<u>Expenses Paid During Period<sup>(1)</sup> (5/1/2018 to 10/31/2018)</u>
Investor Class			
Actual <sup>(2)</sup>	\$1,000.00	\$ 976.20	\$5.88
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.26	\$6.01
Z Class			
Actual <sup>(2)</sup>	\$1,000.00	\$ 977.30	\$3.89
Hypothetical (5% return before expenses)	\$1,000.00	\$1,021.27	\$3.97
Institutional Class			
Actual <sup>(2)</sup>	\$1,000.00	\$ 977.60	\$4.64
Hypothetical (5% return before expenses)	\$1,000.00	\$1,020.52	\$4.74

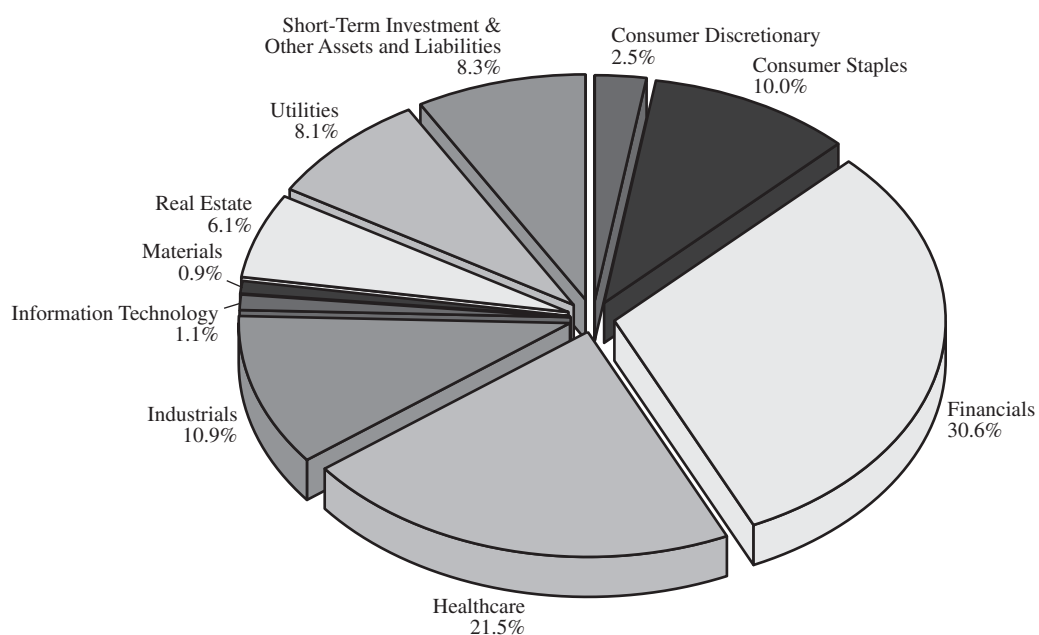

(1) Expenses are equal to the Fund’s annualized expense ratio for the most recent six-month period of 1.18%, 0.78% and 0.93% for the Investor Class, Z Class and Institutional Class, respectively, multiplied by the average account value over the period, multiplied by 184/365 to reflect the one-half year period.

(2) Based on the actual returns for the six-month period ended October 31, 2018 of -2.38%, -2.27% and -2.24% for the Investor Class, Z Class and Institutional Class, respectively.

## NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) OCTOBER 31, 2018

### 1. ORGANIZATION

Managed Portfolio Series (the “Trust”) was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Nuance Mid Cap Value Fund (the “Fund”) is a diversified series with its own investment objectives and policies within the Trust. The investment objective of the Fund is long-term capital appreciation. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies. The Fund commenced operations on May 31, 2011. The Fund currently offers three classes, the Investor Class, the Institutional Class and the Z Class. Investor Class shares are subject to a 0.25% distribution and servicing fee and Investor Class and Institutional Class shares are subject to a shareholder servicing fee of up to 0.15%. Each class of shares has identical rights and privileges with respect to voting on matters affecting a single share class. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

**Security Valuation** – All investments in securities are recorded at their estimated fair value, as described in Note 3.

**Federal Income Taxes** – The Fund complies with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the period ended October 31, 2018, the Fund did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. During the period ended October 31, 2018, the Fund did not incur any interest or penalties.

**Security Transactions, Income and Distributions** – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method of calculation.

The Fund will make distributions, if any, of net investment income quarterly. The Fund will also distribute net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund.

## NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED OCTOBER 31, 2018

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Allocation of Income, Expenses and Gains/Losses** – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Fund are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares. Shareholder service fees are expensed at up to 0.15% of average daily net assets for Investor Class and Institutional Class shares. Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

### 3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

**Equity Securities** – Securities that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available are valued using the Nasdaq Official Closing Price ("NOCP"). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

**Short-Term Investments** – Investments in money market funds are valued at their net asset value per share and are categorized in Level 1 of the fair value hierarchy. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

## NUANCE MID CAP VALUE FUND

### NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED OCTOBER 31, 2018

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its net asset values per share. The Board of Trustees has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board of Trustees regularly reviews reports that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's securities as of October 31, 2018:

	Level 1	Level 2	Level 3	Total
Common Stocks	\$620,374,715	\$ —	\$ —	\$620,374,715
Convertible Preferred Stocks	67,284,912	—	—	67,284,912
Short-Term Investment	59,353,004	—	—	59,353,004
Total Investments in Securities	<u>\$741,012,631</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$741,012,631</u>

Refer to the Schedule of Investments for further information on the classification of investments.

#### 4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Nuance Investments, LLC (the "Adviser") to furnish investment advisory services to the Fund. Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 0.75% of the Fund's average daily net assets.

The Fund's Adviser has contractually agreed to waive a portion or all of its management fees and reimburse the Fund for its expenses to ensure that total annual operating expenses (excluding acquired fund fees and expenses, leverage, interest, dividend and interest expense on short sales, taxes, brokerage commissions and extraordinary expenses) for the Fund do not exceed 1.18%, 0.78% and 0.93% of average daily net assets of the Fund's Investor Class, Z Class and Institutional Class, respectively. Fees waived and expenses reimbursed by the Adviser may be recouped by the Adviser for a period of thirty-six months following the month during which such waiver or reimbursement was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver and reimbursement occurred. The Operating Expense Limitation Agreement is intended to be continual in nature and cannot be terminated within a year after the effective date of the Fund's prospectus. After that date, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees or the Adviser, with the consent of the Board. Waived fees and reimbursed expenses subject to potential recovery by month of expiration are as follows:

Expiration	Amount
November 2018 – April 2019	\$ 11,795
May 2019 – April 2020	\$197,578
May 2020 – April 2021	\$268,219

### NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED OCTOBER 31, 2018

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services” or the “Administrator”) acts as the Fund’s Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the “Custodian”) serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund’s custodian; coordinates the payment of the Fund’s expenses and reviews the Fund’s expense accruals. The officers of the Trust including the Chief Compliance Officer are employees of the Administrator. A Trustee of the Trust was an officer of the Administrator, until retiring on July 2, 2018. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and compliance services for the period ended October 31, 2018, are disclosed in the Statement of Operations.

Quasar Distributors, LLC (the “Distributor”) acts as the Fund’s principal underwriter in a continuous public offering of the Fund’s shares. The Distributor is an affiliate of the Administrator.

#### **5. DISTRIBUTION & SHAREHOLDER SERVICING FEES**

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 (the “Plan”) in the Investor Class only. The Plan permits the Fund to pay for distribution and related expenses at an annual rate of 0.25% of the Investor Class average daily net assets. The expenses covered by the Plan may include the cost of preparing and distributing prospectuses and other sales material, advertising and public relations expenses, payments to financial intermediaries and compensation of personnel involved in selling shares of the Fund. Payments made pursuant to the Plan will represent compensation for distribution and service activities, not reimbursements for specific expenses incurred. For the period ended October 31, 2018, the Investor Class incurred expenses of \$34,984 pursuant to the Plan.

The Fund has entered into a shareholder servicing agreement (the “Agreement”) with the Adviser, under which the Fund may pay servicing fees at an annual rate of up to 0.15% of the average daily net assets of each class. The services provided by such intermediaries are primarily designed to assist shareholders of the Fund and include the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Fund in servicing such shareholders. Services provided by such intermediaries also include the provision of support services to the Fund and includes establishing and maintaining shareholders’ accounts and record processing, purchase and redemption transactions, answering routine client inquiries regarding the Fund, and providing such other personal services to shareholders as the Fund may reasonably request. For the period ended October 31, 2018, the Investor and Institutional Class incurred \$20,991 and \$237,496, respectively, of shareholder servicing fees under the Agreement.

#### 7. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the period ended October 31, 2018, were as follows:

	Purchases	Sales
U.S. Government	\$ —	\$ —
Other	\$498,357,614	\$266,811,684

#### 8. FEDERAL TAX INFORMATION

The aggregate gross unrealized appreciation and depreciation of securities held by the Fund and the total cost of securities for federal income tax purposes at April 30, 2018, the Fund's most recent fiscal year end, were as follows:

Aggregate Gross Appreciation	Aggregate Gross Depreciation	Net	Federal Income Tax Cost
\$25,144,174	\$(13,066,352)	\$12,077,822	\$522,956,231

## NUANCE MID CAP VALUE FUND

### NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED OCTOBER 31, 2018

The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the deferral of wash sale losses. At April 30, 2018, components of accumulated earnings on a tax-basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gains	Other Accumulated Losses	Unrealized Appreciation	Total Accumulated Earnings
\$15,704,724	\$10,652,287	\$ —	\$12,077,822	\$38,434,833

As of April 30, 2018, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31. For the taxable year ended April 30, 2018, the Fund does not plan to defer any qualified late year losses.

The tax character of distributions paid during the year ended October 31, 2018, were as follows:

Ordinary Income*	Long Term Capital Gains	Total
\$2,828,665	\$ —	\$2,828,665

The tax character of distributions paid during the year ended April 30, 2018, were as follows:

Ordinary Income*	Long Term Capital Gains	Total
\$23,217,745	\$9,070,028	\$32,287,773

\* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

The Fund designated as long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax year ended April 30, 2018.

#### 9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As October 31, 2018, Charles Schwab & Co., Inc. and National Financial Services, LLC, for the benefit of its customers, owned 31.08% and 47.25% of the outstanding shares of the Fund, respectively.

#### 10. SUBSEQUENT EVENT

On November 15, 2018, the Fund held a special shareholder meeting to consider a vote on a new investment advisory agreement between the Fund and its investment adviser, Nuance Investments, LLC (the "Adviser"). The Fund's shareholders voted to approve the new investment advisory agreement between the Fund and the Adviser. The current investment advisory agreement for the Fund will terminate upon the closing of the proposed change in ownership of the parent company of the Adviser (the "Transaction") which is expected to occur by the end of the 2018 calendar year. The proposed new investment advisory agreement for the Fund is substantially identical to its current investment advisory agreement, except for the effective dates and the termination dates, and would simply continue the relationship between the Fund and the Adviser. The Transaction is not expected to result in any change in the day-to-day portfolio management, investment objectives and policies or investment processes of the Fund.
