ANNUAL REPORT

APRIL 30, 2022

April 30, 2022

Dear Fellow Shareholders:

We are pleased to write our semi-annual shareholder letter for the Nuance Mid Cap Value Fund (the "Fund"). The Fund is a classic value investment product investing primarily in the equity or equity-linked securities of United States based companies. The Fund seeks long-term capital appreciation primarily through investments in equity securities of companies organized in the United States that the investment team believes are high quality, though temporarily out of favor. The strategy typically invests in a portfolio of 50 to 90 companies with at least 80 percent of the portfolio invested in companies with mid-sized market capitalizations. The Adviser defines mid-capitalization companies as companies within the range of the capitalization of companies constituting the Russell Midcap® Index. The Adviser intends to manage the Fund so that the average weighted market capitalization of its portfolio (excluding short-term investments) falls between the range of the smallest and largest members of the Russell Midcap® Index (defined using a trailing 12-month average of the smallest and largest members on a month to month basis). Although the strategy will invest primarily in the equity securities of U.S. companies, the strategy may invest up to 15% of its assets in equity securities of foreign companies that are classified as "developed" by MSCI. The primary benchmark for the Fund is the Russell Midcap® Value Index. Clients may also be interested in comparing the Fund to the S&P 500® Index.

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Short term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made solely based on returns. Investor Class performance data shown reflects both performance with the maximum sales charge of 5.75% (for periods prior to September 17, 2015) or 5.00% (for period September 17, 2015 and after) and without it. Performance data current to the most recent month end may be obtained by calling 1-855-682-6233.

Nuance Investments, LLC (the "Adviser") has contractually agreed to waive its management fees and pay Fund expenses, in order to ensure that Total Annual Fund Operating Expenses (excluding any front-end or contingent deferred loads, acquired fund fees and expenses, leverage/borrowing interest, interest expense, dividends paid on

short sales, taxes, brokerage commissions and extraordinary expenses) do not exceed 1.18% of the average daily net assets of the Investor Class, 0.93% of the average daily net assets of the Institutional Class, and 0.78% of the average daily net assets of the Z Class through at least August 27, 2022. Net Expense Ratios are as of the Fund's most recent prospectus and are applicable to investors.

- (1) December 31, 2013.
- (2) The Russell Midcap[®] Value Index measures the performance of those Russell Midcap companies with lower price-to-book ratios and lower forecasted growth values. This Index cannot be invested in directly.
- (3) The Standard & Poor's 500[®] Index (S&P 500) is an unmanaged, capitalization-weighted index generally representative of the U.S. Market for large capitalization stocks. This Index cannot be invested in directly.
- (4) May 8, 2017. Performance shown for the Z Class prior to the inception of the Z Class is based on the performance of the Institutional Class shares, adjusted for the lower expenses applicable to Z Class shares.

In terms of performance, since its inception on December 31, 2013 through April 30, 2022, the Institutional Class is up 9.55 percent (annualized) versus its primary index – the Russell Midcap® Value Index – up 9.07 percent and the S&P 500® Index up 12.27 percent. For more perspective on our long term performance, please refer to your prospectus. The Nuance Mid Cap Value product has existed in a separate account form since November 3, 2008. While our Nuance Mid Cap Value Fund outperformed the benchmark over the 6-month time horizon, Nuance cautions clients regarding the use of short-term performance as a tool to make investment decisions. As we remind our clients, your team continues to try and find leading business franchises with sustainable competitive positions that are trading below our internally derived view of fair or intrinsic value. We believe that our time-tested process of finding what we consider best of breed businesses with better than the market downside support and better than the market upside potential over the long-term should lead to solid risk adjusted returns versus our peers and benchmarks.

At Nuance, our team and our processes are designed to emphasize consistency and what we believe is thorough fundamental analysis of companies that have the potential to lead to investment returns that will be acceptable for our shareholders over the long term. To do this, we focus our attention on studying one company at a time using the Nuance approach. Part of that approach is to ensure that each company we own has a sound and solid competitive position and that the companies are undervalued based on our internally derived view of sustainable cash flows, earnings and valuation. We believe in a thorough fundamental valuation analysis and that focusing simply on the value of a business is not enough. Rather, we spend considerable time studying the downside potential of each company we own. As such, we believe that we understand the potential upside and the potential downside risks to our investments. This approach is critical to our goal of trying to provide shareholders with not only above-average returns over time, but above-average risk-adjusted returns as well.

The portfolio was mostly unchanged during the period from a sector exposure standpoint. The largest overweight positions, relative to the benchmark, remain the Health Care and Consumer Staples sectors. In the Health Care sector, we continue to believe that hospital patient volumes are still running below normal as the industry continues to recover from disruption associated with the Covid-19 pandemic. In our opinion, this has created opportunities within the Health Care Equipment & Supplies industry which makes up a large portion of our overweight position in the sector. Within the Consumer Staples sector, we continue to see opportunities primarily in the Personal Products, Household Products, and Food Products industries as we believe Covid-19 is impacting select businesses. Additionally, our view is that earnings have been negatively impacted by rising raw material costs. We believe these costs can ultimately be mostly offset by price increases which generally lag the raw

material price increases. The Financials sector continues to be an overweight position relative to the benchmark as we are finding attractive risk rewards primarily in the Insurance industry, in our view. Our overweight in the Utilities sector is primarily made up of exposure to the Water Utilities industry as we believe these companies are under-earning as the base returns on equity awarded by regulators have been pressured by the historically low interest rate environment. We remain underweight the Energy sector where we believe the sector is facing a multi-year period of competitive transition. Lastly, we remain underweight the Consumer Discretionary, Industrials, Communication Services, Materials, and Information Technology sectors primarily due to competitive uncertainty and valuation concerns.

Thank you for your interest and your continued support.

Mutual fund investing involves risk. Principal loss is possible. Investments in small and mid-capitalization companies involve additional risk such as limited liquidity and greater volatility than larger capitalization companies. Investments in foreign securities involve political, economic and currency risks, greater volatility and differences in accounting methods. The Fund's value investments are subject to the risk that their intrinsic values may not be recognized by the broad market or that their prices may decline.

Past performance does not guarantee future results.

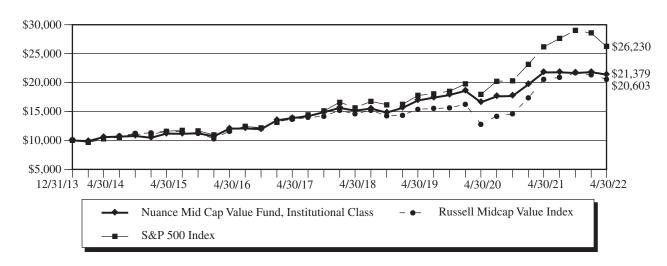

Weighted Market Capitalization: The average market capitalization of all companies in a fund – with each company weighted according to its percent held in the fund.

Cash Flow is a revenue or expense stream that changes an account over a given period.

Opinions expressed are subject to change, are not guaranteed and should not be considered investment advice or recommendations to buy or sell any security.

Nuance Investments, LLC is the advisor to the Nuance Mid Cap Value Fund which is distributed by Quasar Distributors, LLC.

Value of \$10,000 Investment (UNAUDITED)

The chart assumes an initial investment of \$10,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Performance data quoted represents past performance and does not guarantee future results. Investment returns and principal value will fluctuate, and when sold, may be worth more or less than their original cost. Performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-855-682-6233. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

The following is expense information for the Nuance Mid Cap Value Fund as disclosed in the Fund's most recent prospectus dated August 27, 2021:

Investor Class Gross Expense Ratio – 1.24%

Z Class Gross Expense Ratio – 0.84%

Institutional Class Gross Expense Ratio – 0.99%

Net Expense Ratio – 0.79%

Net Expense Ratio – 0.94%

Nuance Investments, LLC (the "Adviser") has contractually agreed to waive its management fees and pay Fund expenses, in order to ensure that Total Annual Fund Operating Expenses (excluding any front-end load or contingent loads, acquired fund fees and expenses, leverage/borrowing, interest expense, dividend and interest expense on short sales, taxes, brokerage commissions, and extraordinary expenses) do not exceed 1.18% of the average daily net assets of the Investor Class, 0.93% of the average daily net assets of the Institutional Class and 0.78% of the average daily net assets of the Z Class. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for a period of 36 months following the month during which such fee waiver and/or expense payment was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee waiver and/or expense payment occurred and the expense limit in place at the time of recoupment. The Operating Expenses Limitation Agreement is indefinite but cannot be terminated through at least August 27, 2022. Thereafter, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees (the "Board") or the Adviser, with consent of the Board.

EXPENSE EXAMPLE (UNAUDITED) APRIL 30, 2022

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include but are not limited to, sales charges (loads) on purchases; and (2) ongoing costs, including management fees, distribution and service (12b-1) fees, shareholder servicing fees, and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (November 1, 2021 – April 30, 2022).

ACTUAL EXPENSES

For each class, the first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

For each class, the second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

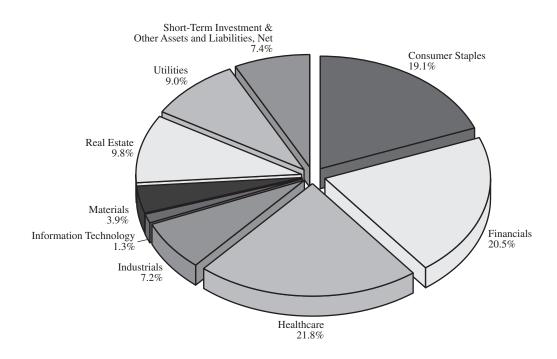

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.

NOTES TO THE FINANCIAL STATEMENTS APRIL 30, 2022

1. ORGANIZATION

Managed Portfolio Series (the "Trust") was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Nuance Mid Cap Value Fund (the "Fund") is a diversified series with its own investment objectives and policies within the Trust. The investment objective of the Fund is long-term capital appreciation. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 Financial Services – Investment Companies. The Fund commenced operations on May 31, 2011. The Fund currently offers three classes, the Investor Class, the Institutional Class and the Z Class. Investor Class shares may be subject to a front-end sales charge of up to 5.00%. Investor Class shares are subject to a 0.25% of average daily net assets distribution and servicing fee and Investor Class and Institutional Class shares are subject to a shareholder servicing fee of up to 0.15% of average daily net assets. Each class of shares has identical rights and privileges with respect to voting on matters affecting a single share class. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Fund complies with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the year ended April 30, 2022, the Fund did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. During the year ended April 30, 2022, the Fund did not incur any interest or penalties. The Fund is subject to examination by U.S. taxing authorities for the tax years ended April 30, 2019, through 2022.

Security Transactions, Income and Distributions – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method of calculation.

The Fund will make distributions, if any, of net investment income quarterly. The Fund will also distribute net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in

Notes to the Financial Statements – Continued April 30, 2022

nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended April 30, 2022, the Fund decreased paid-in capital by \$1,364 and increased distributable earnings by \$1,364.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Income, Expenses and Gains/Losses – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Fund are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares. Shareholder service fees are expensed at up to 0.15% of average daily net assets for Investor and Institutional shares. Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

Equity Securities – Securities that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available are valued using the Nasdaq Official Closing Price ("NOCP"). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Notes to the Financial Statements – Continued April 30, 2022

Short-Term Investments – Investments in other mutual funds, including money market funds are valued at their net asset value per share and are categorized in Level 1 of the fair value hierarchy. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees (the "Board"). These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its net asset values per share. The Board has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board regularly reviews reports that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's securities as of April 30, 2022:

	Level 1	Level 2		Level 3		Total
Common Stocks	\$2,991,223,194	\$ —		\$	_	\$2,991,223,194

Refer to the Schedule of Investments for further information on the classification of investments.

4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Nuance Investments, LLC (the "Adviser") to furnish investment advisory services to the Fund. Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 0.75% of the Fund's average daily net assets.

The Fund's Adviser has contractually agreed to waive a portion or all of its management fees and reimburse the Fund for its expenses to ensure that total annual operating expenses (excluding acquired fund fees and expenses, leverage, interest, dividend and interest expense on short sales, taxes, brokerage commissions and extraordinary expenses) for the Fund do not exceed 1.18%, 0.78% and 0.93% of average daily net assets of the Fund's Investor Class, Z Class and Institutional Class, respectively. Fees waived and expenses reimbursed by the Adviser may be recouped by the Adviser for a period of thirty-six months following the month during which such waiver or reimbursement was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver and reimbursement occurred. The Operating Expense Limitation Agreement is intended to be continual in nature and cannot be terminated within a year after the effective date of the Fund's prospectus. After that date, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board or the Adviser, with the consent of the Board. For the year ended April 30, 2022, the Adviser recouped expenses of \$5,433 relating to fees waived in the current year. Waived fees and reimbursed expenses subject to potential recovery by year of expiration are as follows:

Expiration	Amount
May 2022 – April 2023	\$155,706
May 2023 – April 2024	\$208,199
May 2024 – April 2025	\$201,565

Notes to the Financial Statements – Continued April 30, 2022

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, ("Fund Services" or the "Administrator"), acts as the Fund's Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the "Custodian") serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund's custodian; coordinates the payment of the Fund's expenses and reviews the Fund's expense accruals. The officers of the Trust, including the Chief Compliance Officer are employees of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and compliance services for the year ended April 30, 2022, are disclosed in the Statement of Operations as fund services fees.

5. DISTRIBUTION & SHAREHOLDER SERVICING FEES

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 (the "Plan") in the Investor Class only. The Plan permits the Fund to pay for distribution and related expenses at an annual rate of 0.25% of the Investor Class average daily net assets. The expenses covered by the Plan may include the cost of preparing and distributing prospectuses and other sales material, advertising and public relations expenses, payments to financial intermediaries and compensation of personnel involved in selling shares of the Fund. Payments made pursuant to the Plan will represent compensation for distribution and service activities, not reimbursements for specific expenses incurred. For the year ended April 30, 2022, the Investor Class incurred expenses of \$236,763 pursuant to the Plan.

The Fund has entered into a shareholder servicing agreement (the "Agreement") where the Adviser acts as the shareholder agent, under which the Fund may pay servicing fees at an annual rate of up to 0.15% of the average daily net assets of each class. Payments, if any, to the Adviser under the Agreement may reimburse the Adviser for payments it makes to selected brokers, dealers and administrators which have entered into service agreements with the Adviser for services provided to shareholders of the Fund. Payments may also be made directly to the intermediaries providing shareholder services. The services provided by such intermediaries are primarily designed to assist shareholders of the Fund and include the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Fund in servicing such shareholders. Services provided by such intermediaries also include the provision of support services to the Fund and includes establishing and maintaining shareholders' accounts and record processing, purchase and redemption transactions, answering routine client inquiries regarding the Fund, and providing such other personal services to shareholders as the Fund may reasonably request. For the year ended April 30, 2022, the Investor and Institutional Class incurred \$142,057 and \$2,105,724, respectively, of shareholder servicing fees under the Agreement.

Notes to the Financial Statements – Continued April 30, 2022

7. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the year ended April 30, 2022, were as follows:

	Purchases	Sales
U.S. Government	\$ —	\$ —
Other	\$2,072,971,255	\$2,155,737,558

8. FEDERAL TAX INFORMATION

The aggregate gross unrealized appreciation and depreciation of securities held by the Fund and the total cost of securities for federal income tax purposes at April 30, 2022, the Fund's most recent fiscal year end, were as follows:

Aggregate Gross	Aggregate Gross		Federal Income
Appreciation	Depreciation	Net	Tax Cost
\$202,393,124	\$(237,405,990)	\$(35,012,866)	\$3,546,604,290

Notes to the Financial Statements – Continued April 30, 2022

The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the deferral of wash sale losses. At April 30, 2022, components of distributed earnings on a tax-basis were as follows:

	Undistributed	Other		Total
Undistributed	Long-Term	Accumulated	Unrealized	Distributable
Ordinary Income	Capital Gains	Losses	Depreciation	Earnings
\$7,586,984	\$253,411,660	\$(291,477)	\$(35,012,866)	\$225,694,301

As of April 30, 2022, the Fund's most recent fiscal year end, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31. For the taxable year ended April 30, 2022, the Fund does not plan to defer any qualified later year losses.

The tax character of distributions paid during the six months ended April 30, 2022, were as follows:

Ordinary	Long-Term	
Income*	Capital Gains	Total
\$161,479,635	\$257,126,443	\$418,606,078

The tax character of distributions paid during the year ended April 30, 2021, were as follows:

Ordinary	Long-Term	
Income*	Capital Gains	Total
\$22,231,811	\$ —	\$22,231,811

^{*} For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

The Fund designated as long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings of the Fund related to net capital gain to zero for the tax year ended April 30, 2022.

9. GENERAL RISK

The recent global outbreak of COVID-19 has disrupted economic markets and the prolonged economic impact is uncertain. The operational and financial performance of the issuers of securities in which the Fund invests depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn impact the value of the Fund's investments.

On February 24, 2022, Russia commenced a military attack on Ukraine. The outbreak of hostilities between the two countries could result in more widespread conflict and could have a severe adverse effect on the region and the markets. In addition, sanctions imposed on Russia by the United States and other countries, and any sanctions imposed in the future could have a significant adverse impact on the Russian economy and related markets. The price and liquidity of investments may fluctuate widely as a result of the conflict and related events. How long such conflict and related events will last and whether it will escalate further cannot be predicted, nor its effect on the Fund.

10. TRANSACTIONS WITH AFFILIATES

If the Fund's holding represents ownership of 5% or more of the voting securities of a company, the company is deemed to be an affiliate as defined by the 1940 Act. The Fund conducted transactions during the year ended April 30, 2022 with affiliated companies as so defined:

		Beginning Value	Additions	Reductions	Ending Value
Cal-Maine Foods, Inc. ⁽¹⁾		\$102,198,131	\$ —	\$(66,995,352)	\$ 78,401,365

⁽¹⁾ Security is unaffiliated as of April 30, 2022.

11. RECENT REGULATORY UPDATE

In December 2020, the SEC adopted a new rule providing a framework for fund valuation practices ("Rule 2a-5"). Rule 2a-5 establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 will permit fund boards to designate certain parties to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must fair value a security. In connection with Rule 2a-5, the SEC also adopted related recordkeeping requirements and is rescinding previously issued guidance, including with respect to the role of a board in determining fair value and the accounting and auditing of fund investments. The Fund will be required to comply with the rules by September 8, 2022. Management is currently assessing the potential impact of the new rules on the Fund's financial statements, if any.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Nuance Mid Cap Value Fund and Board of Trustees of Managed Portfolio Series

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Nuance Mid Cap Value Fund (the "Fund"), a series of Managed Portfolio Series, as of April 30, 2022, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of April 30, 2022, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2022, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more of Nuance Investments, LLC's investment companies since 2011.

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the fiscal year ended April 30, 2022 was 45.92% for the Fund.

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871 (k)(2)(c) was 78.51%.

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED)

At the regular meeting of the Board of Trustees of Managed Portfolio Series ("Trust") on February 22-23, 2022, the Trust's Board of Trustees ("Board"), each of whom were present virtually via video conference, including all of the Trustees who are not "interested persons" of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended, ("Independent Trustees") considered and approved the continuation of the Investment Advisory Agreement between the Trust and Nuance Investments, LLC ("Nuance" or the "Adviser") regarding the Nuance Mid Cap Value Fund (the "Fund") (the "Investment Advisory Agreement") for another annual term.

Prior to the meeting and at a meeting held on January 11, 2022, the Trustees received and considered information from Nuance and the Trust's administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement ("Support Materials"). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees and received a memorandum from such counsel discussing the legal standards for the Trustees' consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board's determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant including the following with respect to the Fund: (1) the nature, extent, and quality of the services provided by Nuance with respect to the Fund; (2) the Fund's historical performance as managed by Nuance; (3) the costs of the services provided by Nuance and the profits realized by Nuance from services rendered to the Fund; (4) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (5) the extent to which economies of scale may be realized as the Fund grows, and whether the advisory fee for the Fund reflects such economies of scale for the Fund's benefit; and (6) other benefits to Nuance resulting from its relationship with the Fund. In their deliberations, the Trustees weighed to varying degrees the importance of the information provided to them, did not identify any particular information that was all-important or controlling.

Based upon the information provided to the Board, including at a presentation by representatives from Nuance, and the Support Materials, the Board concluded that the overall arrangements between the Trust and Nuance as set forth in the Investment Advisory Agreement, as the agreement relates to the Fund, continue to be fair and reasonable in light of the services that Nuance performs, the investment advisory fees that the Fund pays Nuance for such services, and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees' determination to approve the continuation of the Investment Advisory Agreement, as it relates to the Fund, are summarized below.

Nature, Extent and Quality of Services Provided. The Trustees considered the scope of services that Nuance provides under the Investment Advisory Agreement with respect to the Fund, noting that such services include, but are not limited to, the following: (1) investing the Fund's assets consistent with the Fund's investment objective and investment policies; (2) determining the portfolio securities to be purchased, sold, or otherwise disposed of, and the timing of such transactions; (3) voting all proxies, if any, with respect to the Fund's portfolio securities; (4) maintaining the required books and records for transactions that Nuance effected on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; and (6) monitoring and maintaining the Fund's compliance with policies and procedures of the Trust and with applicable securities laws. The Trustees reviewed Nuance's financial statements, assets under management and capitalization. In that regard, the Trustees

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) - CONTINUED

concluded that Nuance had sufficient resources to support the management of the Fund. The Trustees considered the investment philosophy of the Fund's portfolio managers, one of whom has managed the Fund since its inception date, and their investment analysis and portfolio management experience, noting one portfolio manager's significant experience managing assets utilizing investment objectives similar to those of the Fund. The Trustees concluded that they were satisfied with the nature, extent and quality of services that Nuance provides to the Fund under the Investment Advisory Agreement.

Fund Historical Performance and the Overall Performance of Nuance. In assessing the quality of the portfolio management delivered by Nuance, the Trustees reviewed the short-term and longer-term performance of the Fund on both an absolute basis and in comparison to an appropriate securities benchmark index, the Fund's peer funds according to Morningstar classifications and as compiled by Barrington Partners (the "Morningstar BP Cohort"), and the Fund's composite of separate accounts that Nuance manages utilizing investment strategies similar to those of the Fund. When reviewing the Fund's performance against its Morningstar BP Cohort, the Trustees took into account that the investment objective and strategies of the Fund, as well as the Fund's level of risk tolerance, may differ significantly from funds in its Morningstar BP Cohort. The Trustees considered that the Fund outperformed its Morningstar BP Cohort average over the three-year and five-year periods ended September 30, 2021, but that it underperformed the Morningstar BP Cohort average for the one-year period ended September 30, 2021. The Trustees also considered that the Fund had outperformed its primary benchmark over the three-year, five-year and since inception periods ended December 31, 2020, but underperformed the primary benchmark for the year-to-date period ended September 30, 2021 and the one-year period ended December 31, 2020. The Trustees further noted the Fund underperformed its secondary benchmark across each of those periods. The Trustees then observed that the Fund's performance was consistent with the performance of a composite of similar accounts managed by Nuance over all relevant time periods.

Comparative Fee and Expense Data. The Board reviewed and considered the advisory fee payable by the Fund to Nuance under the Investment Advisory Agreement. The Board compared the Fund's contractual advisory fee and total expense ratio to industry data with respect to other mutual funds in the same Morningstar BP Cohort. The Fund's contractual management fee is above the Morningstar BP Cohort average but within the range of management fees charged by other funds in the Morningstar BP Cohort. The total expenses (after waivers) for the Fund is below the Morningstar BP Cohort average for the Z Class, slightly above the Morningstar BP Cohort average for the Institutional Class and above the Morningstar BP Cohort average for the Investor Class.

While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that Nuance's advisory fee with respect to the Fund continues to be reasonable.

Cost of Advisory Services and Profitability. The Trustees considered the annual advisory fee that the Fund pays to Nuance under the Investment Advisory Agreement, as well as Nuance's profitability from services that Nuance rendered to the Fund under the Investment Advisory Agreement during the 12-month period ended September 30, 2021. The Trustees also considered the effect of an expense limitation agreement on Nuance's compensation and that Nuance has contractually agreed to reduce its advisory fees and, if necessary, reimburse the Fund for operating expenses, as specified in the Fund's prospectus. In that regard, the Trustees noted that the Fund had waived a portion of its advisory fee during the one-year period ended September 30, 2021. The Trustees also considered the management fees Nuance charges to separately managed accounts with investment strategies similar to those of the Fund. They observed that Nuance charges management fees that range above and below the

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) - CONTINUED

management fees charged to the Fund, depending on assets under management. The Trustees also took into account, however, that Nuance has additional responsibilities with respect to the Fund, including additional compliance obligations and the preparation of Board and shareholder materials, which justify a higher fee. The Trustees concluded that Nuance's service relationship with the Fund has yielded a reasonable profit.

Economies of Scale. The Trustees then considered whether the Fund may benefit from any economies of scale, noting that the investment advisory fees for the Fund in the Investment Advisory Agreement do not contain breakpoints. The Trustees additionally took into account that Nuance had expressed reservations about adopting breakpoints for the Fund because of concerns about potential capacity constraints associated with each strategy. The Trustees agreed to discuss the implementation of breakpoints with Nuance in one year based on the level of assets in the Fund at that time.

Other Benefits. The Trustees considered the direct and indirect benefits that could be realized by Nuance from its relationship with the Fund. The Trustees considered that Nuance does not utilize soft dollar arrangements with respect to portfolio transactions, and that Nuance does not use affiliated brokers to execute the Fund's portfolio transactions. While the Trustees noted that the Fund utilizes Rule 12b-1 fees to pay for shareholder and distribution services related to Investor Class shareholders of the Fund, the Trustees observed that distribution expenses that Nuance incurred significantly exceed any Rule 12b-1 payments from the Fund. The Trustees considered that Nuance may receive some form of reputational benefit from services rendered to the Fund, but that such benefits are immaterial and cannot otherwise be quantified. The Trustees concluded that Nuance does not receive additional material benefits from its relationship with the Fund.

PRIVACY NOTICE (UNAUDITED)
