Nuance Investments, LLC

Semi-Annual Update: Nuance Mid Cap Value

Agenda

- Firm Overview
- Team Update
- Process Summary
- 2026 Mid-Year Review
- 2026 Mid-Year Outlook

Nuance Investments

- Nuance Investments, LLC (Nuance) is a boutique classic value investment firm headquartered in Kansas City, Missouri.

- Our investment team has executed a consistent philosophy and process since the firm's founding in 2008.
  - The Nuance Investment team has over 60 years of collective experience executing the Nuance Investment Process.[2]

- Nuance is 100% employee owned.

Strategy	Inception	Current Assets[1]
Nuance Concentrated Value	2008	$220 million
Nuance Mid Cap Value	2008	$680 million
Nuance Strategies		**$900 million**

[1] Assets include discretionary assets and assets under advisement. Assets under advisement represent UMA assets, for which we have no discretionary authority nor responsibility for arranging or effecting the purchase or sale of securities. A portion of the UMA assets are reported on a delayed basis based on platform limitations. Inclusion of these assets may make our total asset number different from assets under management reported elsewhere. [2] For individual bios and experience, please see the Investment Team slide.

Nuance’s Investment Team

President & Chief Investment Officer

Scott Moore, CFA
Scott.Moore@nuanceinvestments.com

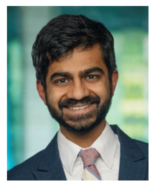
- 9 years with Nuance Investments
- Expertise in the Industrials, Real Estate, Energy, and Utilities sectors
- Coverage of the Industrials, Real Estate, and Energy sectors

Investment Analyst



Aditya Narvekar, CFA
Aditya.Narvekar@nuanceinvestments.com

- 6 years with Nuance Investments
- 11 years of related financial experience
- Expertise in the Financials and Materials sectors
- Coverage of the Financials and Materials sectors

Nuance's Investment Philosophy and Process

The Nuance team believes that investing in leading business franchises trading at a discount to fair value can generate excess returns over time

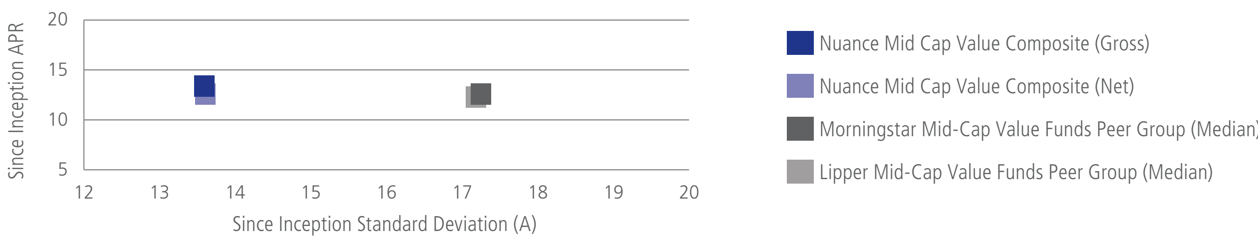
Quantitative Screening → Competitive Analysis → Proprietary Financial Statement Analysis → Proprietary Valuation Study → Portfolio Construction

Nuance Mid Cap Value Mid-Year Review: Performance

Nuance Mid Cap Value November 30, 2008 - June 30, 2026

	Since Inception APR	Since Inception Standard Deviation (A)	Since Inception Sharpe Ratio (A)
Nuance Mid Cap Value Composite (Gross)	13.37	13.59	0.88
Nuance Mid Cap Value Composite (Net)	12.58	13.61	0.82
Morningstar Mid-Cap Value Funds Peer Group (Median)	12.58	17.25	0.64
Peer Group Percentile and Ranking	50th (93 of 187)	1st (2 of 187)	1st (1 of 187)
Lipper Mid-Cap Value Funds Peer Group (Median)	12.26	17.18	0.62
Peer Group Percentile and Ranking	40th (19 of 46)	1st (1 of 46)	1st (1 of 46)

Risk and Reward November 30, 2008 - June 30, 2026



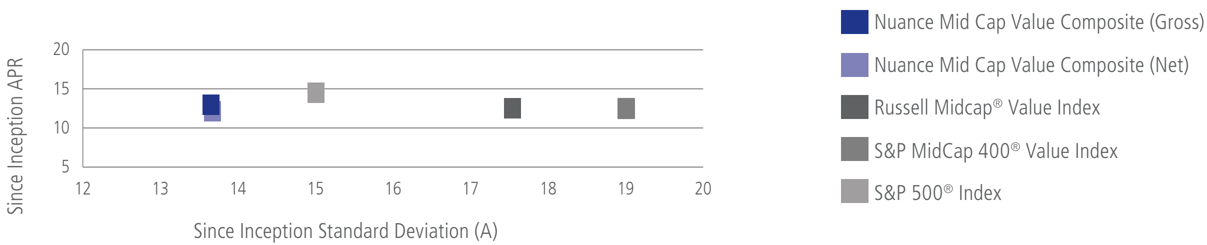
Rankings and peer group comparisons are created internally on a quarterly basis using data from FactSet. For comparison purposes, subsets of the Morningstar Mid-Cap Value Funds Peer Group and the Lipper Mid-Cap Value Funds Peer Group have been presented as investment strategies with a similar investment style to the Nuance Mid Cap Value Composite. For more information on peer group comparisons and calculations, please refer to the full disclosures.

Nuance Mid Cap Value Mid-Year Review: Performance

Nuance Mid Cap Value Composite November 3, 2008 - June 30, 2026

	Since Inception APR	Since Inception TR	Since Inception Standard Deviation (A)	Since Inception Sharpe Ratio (A)
Nuance Mid Cap Value (Gross)	12.93	756.91	13.66	0.84
Nuance Mid Cap Value (Net)	12.14	657.73	13.67	0.79
Russell Midcap® Value Index	12.53	705.14	17.54	0.63
S&P MidCap 400® Value Index	12.49	699.37	19.01	0.58
S&P 500® Index	14.45	985.76	15.01	0.87

Risk and Reward November 3, 2008 - June 30, 2026



Commencement of the Nuance Mid Cap Value Composite was 11/3/08. Return figures for the Nuance Mid Cap Value Composite are provided by Clearwater Analytics. Actual account returns may be higher or lower than the Composite returns due to various factors including differences in portfolio holdings, timing of security transactions, client restrictions, and account inception date. The primary benchmark for the Nuance Mid Cap Value Composite is the Russell Midcap® Value Index. The secondary benchmarks are the S&P MidCap 400® TR Value Index and S&P 500® TR Index. Return figures for all indices are provided by FactSet and do not include the reinvestment of dividends. Investors cannot invest directly in any index. Annualized Standard Deviation and Annualized Sharpe Ratio figures are provided by FactSet. Standard Deviation is a statistical measure of the historical volatility of a portfolio that reflects its dispersion or deviation from its mean. The Sharpe Ratio is a calculation of a product's risk-adjusted performance over time. The ratio is calculated by taking a product's annualized excess return over a risk-free rate (we use the Citigroup 3-Month Treasury Bill as the risk-free rate) and dividing by its annualized standard deviation calculated using monthly returns. For more information on the calculation of the statistics shown, see the full disclosures or contact Nuance Investments.

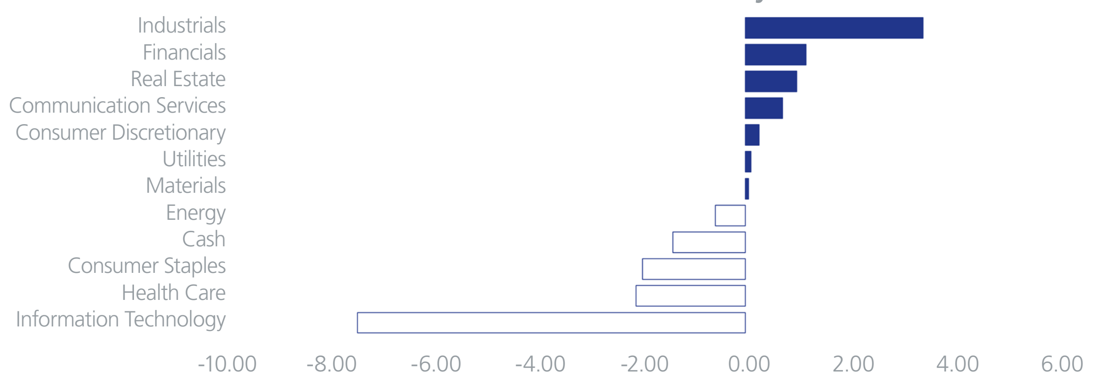
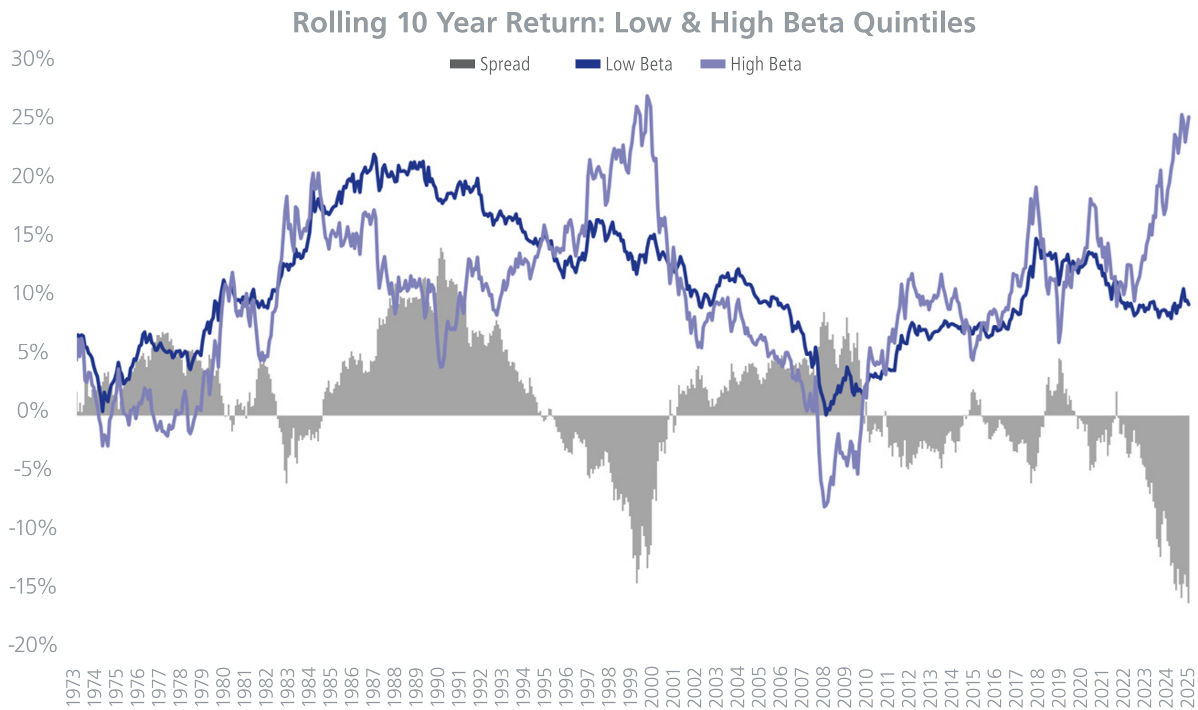
Year to Date Total Attribution Effect by Sector



Sector attribution effects shown above are calculated on a gross basis, without deduction of investment management fees, transaction costs, or other expenses that would reduce returns. Sector attribution is supplemental information and does not represent the performance of any actual account or investment and therefore should be examined in conjunction with the performance of the portfolio during the referenced time period.

Nuance Mid Cap Value Mid-Year Outlook: Perspectives



The returns shown reflect the historical performance of the Lower Beta and Higher Beta portfolios using the Fama/French methodology, available at: https://mba.tuck.dartmouth.edu/pages/faculty/ken.french/Data_Library/det_port_form_BETA.html and presented on a value-weighted, gross basis. No net-of-fees return is applicable or shown. The time periods selected illustrate how the performance of lower- and higher-beta stocks, as academically defined and constructed by Fama/French, can vary materially across different market environments. These periods are not representative of all market environments, and the sequence shown should not be interpreted as predictive of future performance of lower- and higher-beta stocks. Results for other time periods, or using different beta construction methodologies, would differ materially. Portfolios are unmanaged, cannot be invested in directly, and returns assume reinvestment of dividends and income without deduction of fees, expenses, or transaction costs. Beta is a measure of a security's volatility and correlation of returns relative to a broader market benchmark. Actual investment results in a strategy approximating these characteristics would be lower due to fees, expenses, and transaction costs. Past performance is not indicative of future results.

Nuance Mid Cap Value Mid-Year Outlook: Top 10 & Sector Weights

June 30, 2026

Company Name	Weight	GICS® Sector
QIAGEN NV	7.3	Health Care
California Water Service Group	6.6	Utilities
Beiersdorf AG Unsp ADR	5.3	Consumer Staples
Clorox Company	5.0	Consumer Staples

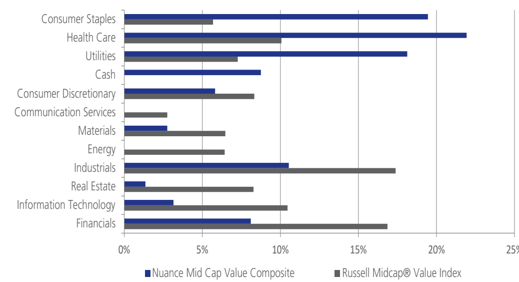
Percent of Sector Holdings Difference



Top 10 holdings subject to change. Sector Classifications are generally determined by referencing the Global Industry Classification Standard (GICS®) Codes developed by Standard & Poor's and Morgan Stanley Capital International. Sector Allocations are a percent of equity investments and subject to change. The Portfolio represents the Nuance Mid Cap Value Composite and the RMV Index represents the Russell Midcap® Value Index. Sector allocation provided by FactSet.

Nuance Mid Cap Value Mid-Year Outlook: Beiersdorf AG (BDRFY)

Global leader in tape style adhesives via Tesa brand and a variety of personal care product categories led by Nivea brand

Transitory underearning driven by weaker European consumer spending and near-term margin pressure from increased R&D and marketing spending to support brands

Best in class balance sheet with net cash of close to €4 billion and step up in share repurchase plan

Attractive risk reward with current valuation near historic lows and potential additional upside from accretive cash deployment

Nuance Mid Cap Value Mid-Year Outlook: Qiagen (QGEN)

Global leader in kits and consumables used to prepare biological samples for life science and diagnostics applications

Transitory underearning due to research customer spending hesitancy and softness in immigration testing volumes

Strong balance sheet and accretive capital allocation through new open market share repurchase authorization

Attractive risk reward versus peers and potential takeover candidate with board actively exploring a sale of the company

Why Nuance?

- Consistent and Experienced Team
- Consistent Time-Tested Process
- Goal is consistent Performance both Absolute and Risk-Adjusted

Value. Delivered.

Disclaimer and Notes

Not An Offer or Inducement

This material has been prepared for informational purposes only and does not constitute investment advice, and should not be construed as a solicitation or offer for sale, or any invitation to offer to buy or subscribe for, any securities, nor should it form the basis of, or be relied on in any connection with, any contract or commitment whatsoever. Any such offer or solicitation will be made only by means of offering discretionary investment management services under written contract. None of the information or analyses presented are intended to form the basis for any investment decision, and no specific recommendations are intended. Nuance expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) the use of this material, (ii) reliance on any information contained herein, (iii) any error, omission or inaccuracy in any such information or (iv) any action resulting therefrom.

Investment Performance

Investors should seek financial advice regarding the appropriateness of investing in any securities or investment strategies discussed or recommended in this documentation and should understand that statements regarding future prospects may not be realized. Investors should note that income from such securities may fluctuate and that each security's price or value may rise or fall. Accordingly, investors may receive back less than originally invested.

No Warranties

Nuance takes care to ensure that the information provided is accurate as of the date noted on the material. Opinions expressed herein are subject to change without notice. All information and content in this book is furnished as is, without warranty of any kind, express or implied, including but not limited to implied warranties of merchantability, fitness for a particular purpose, or non-infringement. Certain information herein has been obtained from third-party sources believed to be reliable, but we do not guarantee or warrant its completeness or accuracy.

Fees and Related

The full fee schedule for all Nuance products is available upon request. It should be noted that the collection of fees produces a compounding effect on the total rate of return net of management fees. Fees for separate institutional accounts in Nuance Mid Cap Value generally are 0.75% for assets under $25 million, 0.70% for assets under management between $25-50 million, 0.65% for assets under management between $50-75 million, 0.60% for assets under management between $75-100 million, and 0.55% for assets greater than $100 million. Our standard fee schedule for managed account platforms is 0.10% higher across all asset level breakpoints. Performance-based fee structures are available for qualified clients and are negotiated individually. Nuance reserves the right to modify fee structures on an account by account basis at its discretion. In instances where Nuance has multiple accounts under a firm relationship, Nuance typically calculates the amount of assets under management for the purpose of determining the applicable fee breakpoint by including all month-end assets (mutual fund and separate account) under that relationship. In calculating mutual fund assets for the purposes of breakpoint aggregation, Nuance utilizes a third-party provider or adviser data to obtain shareholder specific information associated with the firm relationship and aggregation is subject to the limitations and availability of such data. Gross of fee performance returns are presented before management fees but after all trading expenses that may occur. No other fees or expenses are deducted for gross of fee performance. Net of fee performance returns are presented after actual standard management fees, performance-based management fees and all trading expenses that may occur. No other fees are deducted aside from trading and management fees for the calculation of net of fee performance. Valuations are net of all applicable withholding taxes. Portfolios are valued in accordance with GIPS® Valuation Principles. More information regarding standard investment management fees and the calculation of performance-based investment management fees is available upon request.

Additional Notes and Disclosures

The use of derivatives may be employed for purposes of currency hedging and or to equitize the cash position of the portfolios.

The Nuance Mid Cap Value Composite is a mid-capitalization value investment product and consists of separately managed accounts in the Nuance Mid Cap Value strategy. Rankings and peer group comparisons are created internally on a quarterly basis using data from FactSet. Nuance pays a licensing fee to FactSet to access their platform and to use their data, including peer group rankings, in marketing materials. The peer groups consist of mutual funds within the stated category with performance history available from the Composite inception date. For peer group comparisons, all Returns, Standard Deviation and Sharpe Ratio calculations, including those of the Composite were calculated by FactSet based upon funds with monthly net return data from December 2008 to the displayed date. Prior to December 2020, Nuance utilized Zephyr and eVestment for peer group data. For additional performance periods, please visit: https://nuanceinvestments.com/peer-group-disclosures/. *Additional Information*: Portfolio composition will vary over time and may change without notice. Over the product life, the Nuance Mid Cap Value Separate Account Product has been classified by Morningstar in the following categories: Mid-Cap Value. Lipper does not provide product level classifications. Current investment style and assigned peer groups may differ from the styles presented. Nuance utilizes fund peer groups due to the limited availability of separate account data. The Nuance Mid Cap Value Composite is compared to various fund peer groups as defined by investment style and constructed in a manner that is similar to the guidelines and classifications of the third party category groups to which it is compared. However, fund category groups differ from separate account category groups. Morningstar Categories

Disclaimer and Notes Continued

are based on the average holdings statistics over the past three years and are applied to both funds and separate accounts. Morningstar Style Box Methodology is based on growth versus value scores using historical measures of various portfolio components and weights. A complete description of Morningstar's Category classifications and Style Box Methodology can be found at https://www.morningstar.com/research/signature. For Morningstar ratings of our separate accounts, please visit: https://nuanceinvestments.com/awards-mid-cap-value/. Lipper's Fund Classifications have a prospectus-based methodology with diversified funds having an additional portfolio-based classification and are applied to open-ended funds but not to separate accounts. A complete description of Lipper's fund classification methodology can be found at https://lipperalpha.refinitiv.com. Standard Deviation is a statistical measure of the historical volatility of a portfolio that reflects its dispersion or deviation from its mean. The Sharpe Ratio is a calculation of a product's risk-adjusted performance over time. The ratio is calculated by taking a product's annualized excess return over a risk-free rate (The Firm uses the Citigroup 3-month Treasury Bill as the risk-free rate) and dividing by its annualized standard deviation calculated using monthly returns.

The Price to Earnings ratio measures the price of a company's stock in relation to its earnings per share. The Nuance normalized earnings number is derived internally based on proprietary financial statement analysis. The Nuance price to earnings multiple is the median price to normalized earnings ratio across the Nuance Approved List and is a proprietary calculation. As of 6/30/26 composite weights of names discussed are as follows: BDRFY (5.3%) and QGEN (7.3%). The information presented related to the Nuance investment decision and selection process is intended to be informational in nature, speak to our process and does not represent a recommendation in any specific security or securities. Information not specific to a cited source constitutes the opinion of the Nuance Investment Team and should not be relied upon to make investment decisions. Investors should be aware of the risks associated with data sources including without limitation, fundamental, technical, qualitative, and quantitative factors used in our investment process. Errors may exist in data acquired from third party vendors, the development of investment ideas, the analysis of data, and the portfolio construction process. While Nuance takes steps to verify information to minimize the impact of potential errors, we cannot guarantee that errors will not occur.

Beta measures volatility as compared to that of the overall market. The Market's beta is set at 1.00; a beta higher than 1.00 is considered to be more volatile than the market, while a beta lower than 1.00 is considered to be less volatile.

Past Performance is not a guarantee of future results. Securities are subject to general market risks due to a variety of factors that affect the overall market. There is no guarantee that an investment with the strategy will be profitable or meet its investment objectives, and it may underperform the market. Please contact client.services@nuanceinvestments.com to request a copy of the Firm's Disclosure Brochure for more information.

Compliance Statement

Nuance claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Nuance has been independently verified for the periods 11/3/08 – 3/31/25 by Absolute Performance Verification. The verification reports are available upon request. A firm that claims compliance with the GIPS® standards must establish policies and procedures for complying with all the applicable requirements of the GIPS® standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance have been designed in compliance with the GIPS® standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Fees and Returns:

Nuance is an investment adviser registered with the Securities and Exchange Commission. The firm maintains a complete list and description of composites, which is available upon request. Results are based on fully discretionary separate accounts under management, including those accounts no longer with the firm. The U.S. Dollar is the currency used to express performance returns and assets. Performance results include the reinvestment of income, and are presented both net and gross of management fees and gross of foreign withholding taxes. Both gross and net of fee returns are reduced by trading expenses

GIPS® Compliance Disclosures Continued

that may occur. Net of fee performance returns are presented after actual standard management fees, performance-based management fees, and all trading expenses that may occur. No other fees are deducted aside from trading and management fees for the calculation of net of fee performance. The full fee schedule for all Nuance products is available upon request. It should be noted that the collection of fees produces a compounding effect on the total rate of return net of management fees.Fees for separate institutional accounts in Nuance Mid Cap Value generally are 0.75% for assets under $25 million, 0.70% for assets under management between $25-50 million, 0.65% for assets under management between $50-75 million, 0.60% for assets under management between $75-100 million, and 0.55% for assets greater than $100 million. Our standard fee schedule for managed account platforms is 0.10% higher across all asset level breakpoints. Nuance reserves the right to modify fee structures on an account by account basis at its discretion. Performance-based fee structures are available for qualified clients and are negotiated individually. In instances where Nuance has multiple accounts under a firm relationship, Nuance typically calculates the amount of assets under management for the purpose of determining the applicable fee breakpoint by including all month-end assets (mutual fund and separate account) under that relationship. In calculating mutual fund assets for the purposes of breakpoint aggregation, Nuance utilizes a third-party provider or adviser data to obtain shareholder specific information associated with the firm relationship and aggregation is subject to the limitations and availability of such data.

Nuance's annual advisory fee is 0.75% of the average daily net assets for the Nuance Mid Cap Value Fund. For the Nuance Mid Cap Value Fund, the net expense ratio is 1.21% and 0.96% of the average daily net assets attributable to the Investor Class and the Institutional Class shares, respectively. The net expense ratio for the Z Class is 0.81%. Nuance has contractually agreed to reduce its management fees and pay fund expenses until at least 8/28/26, to ensure that total annual fund operating expenses (exclusive of certain expenses as indicated in the prospectus) do not exceed 1.20% for the Investor Class, 0.95% for the Institutional Class, and 0.80% for the Z Class. The net expense ratio represents what investors have paid as of the prospectus dated 8/28/25.

From the inception of each composite until 12/31/10, Time Weighted Return was compounded on a monthly basis. Beginning 1/1/11 through present, Time Weighted Return was compounded on a daily basis. Nuance updated its index performance source from Bloomberg to FactSet effective 12/31/20. Historical index returns have been amended to reflect FactSet source information.

Definition of the Firm

The definition of the firm is the foundation for firm-wide compliance and creates defined boundaries for determining the assets of the firm. In this instance, the firm is defined as Nuance Investments, LLC (Nuance). Nuance, founded on 11/1/08, was formed on the belief that the ability to outperform the broad stock market is predicated on a consistent and disciplined value investing approach. The Investment Management Team selects securities for the Nuance investment portfolios by using an extensive quantitative screening and fundamental research process that identifies leading businesses selling at a discount to fair value and that have the potential to generate above-average rates of returns over time. The Investment Management Team seeks to identify companies across a range of industries and market sectors that have leading and sustainable market share positions, above-average financial strength, and are trading at a discount to their internal view of intrinsic value. The Investment Management Team may sell an investment when it believes it has surpassed its intrinsic value by applying the screening process described above, for purposes of portfolio construction or risk management, or when a more attractive investment opportunity becomes available. The total firm assets will be defined as all discretionary and non-discretionary assets under management within Nuance. This includes primary investment management accounts, sub-advisory investment management accounts and wrap accounts as well as both fee-paying and non-fee paying assets.

Strategy: Our Core offerings are the Nuance Mid Cap Value Strategy and the Nuance Concentrated Value Strategy. The Nuance Mid Cap Value Composite consists of separately managed accounts and pooled investment funds (portfolios) in the Nuance Mid Cap Value strategy. The composite was created and incepted on November 3, 2008. Nuance Mid Cap Value seeks to achieve long-term capital appreciation by investing primarily in equity securities (including common stocks, preferred stocks, and convertible securities) of companies organized in the United States that the Investment Management Team believes are high quality, though temporarily out of favor. The market capitalization of at least 80 percent of the portfolio will generally be maintained in companies with market capitalizations between the smallest and largest members of the Russell Midcap® Index (defined using a trailing 12 month average derived from Factset of the smallest and largest members on a month to month basis). The weighted average market capitalization will also be maintained between the smallest and largest members of the Russell Midcap® Index. The Investment Management Team will invest primarily in the equity securities of U.S. companies. The portfolio may invest up to 15% of its assets in equity securities of foreign companies in countries classified as developed by MSCI. Nuance utilizes FactSet's country assignments for individual companies. 25% of the portfolio assets will generally not have positions of greater than 5%. The portfolio generally will not exceed a 10% weighting in Cash. Each security position will not be greater than 7.5% of the market value of the portfolio. The portfolio will not exceed a 25% weighting in one industry as defined by the Global Industry Classification Standard (GICS®). Sector diversification generally will be within +/- 15% Russell Midcap® Value Index. This is a fundamental diversification limit. A typical portfolio will hold between 50 and 90 companies. This is a fundamental diversification limit. There is no minimum separate account asset level necessary for inclusion in the composite.

Benchmark: For comparison purposes, the composite is measured against the Russell Midcap® Value Index as the primary index. The Russell Midcap® Value Index measures the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap® Index companies with lower price-to-book ratios and lower forecasted growth values. The secondary benchmarks are the S&P MidCap 400® TR Value Index and S&P 500® TR Index.

Dispersion: Dispersion is calculated from gross of fee returns using an equal-weighted standard deviation methodology. Only those accounts included for the full calculation period are part of the dispersion calculation. The 3-year annualized standard deviation value is calculated using 36 consecutive monthly gross of fee returns to the end calculation period. Prior to 1/1/17, dispersion was calculated using an asset-weighted methodology. The calculation methodology was updated based on a new performance system dispersion calculation.

Significant Cash Flow Policy: Nuance has adopted the following Significant Security & Cash Flow Policy since inception of the composite. An account will be removed from a composite if a client has given specific instructions that prevent full investment of securities or cash flow(s) in a timely manner (defined as 5 business days or greater), or if a single security or cash flow is equal or greater than 10 percent of the total account value based on the beginning of the month market value. If these circumstances exist, the account will be removed from the composite and added back to the composite on the first day of the following month. More information regarding our Composite List and descriptions and policies for valuing investments, calculating performance, and preparing GIPS® reports are available upon request by contacting client.services@nuanceinvestments.com or 816-743-7080. To obtain information about the pooled funds included in this strategy, please contact client.services@nuanceinvestments.com or 816-743-7080.
